LEACHATE EXTRACTION PROCEDURE

(1) Sampling

Collect a sufficient amount of sample to provide approximately 100 g of solid material, using techniques which ensure that the sample is representative of the waste.

(2) Equipment

- 2.1 Sieve, 9.5 mm mesh opening, stainless steel or plastic material.
- 2.2 Stainless steel filtration unit, 142 mm diameter, minimum 1L capacity, capable of sustaining a pressure of 5 kg/cm², applied to the solution to be filtered.
- 2.3 Membrane filter, 142 mm diameter, 0.45 µm diameter pore size, made of synthetic organic material such as cellulose acetate, cellulose nitrate, nylon or polycarbonate and which is compatible with the leachate to be filtered. Teflon is recommended for organic constituents.
- 2.4 Glass fibre prefilter, 124 mm diameter, 3 µm to 12 µm pore size range.
- 2.5 Vacuum filtration unit, 90 mm diameter.
- 2.6 Membrane filter 90 mm diameter as per Step 2.3.
- 2.7 Glass fibre filter 70 mm diameter as per Step 2.4.
- 2.8 Solid waste rotary extractor - a device that rotates the bottles end over end about a central axis through 360°, with a speed of 10 rpm. The dimensions of the box will depend on the needs of each laboratory. (Figure 1).
- 2.9 Structural Integrity Tester with a 3.18 cm diameter hammer weighing 0.33 kilogram and having a free fall of 15.24 cm. (Figure 2).
- 2.10 pH meter, with a readability of 0.01 pH unit and accuracy of ± 0.1 pH units.
- 2.11 Cylindrical bottles, wide mouth, 1250 mL capacity, polyethylene or glass with Teflon lined cap for inorganic constituents; glass with Teflon-lined cap or Teflon bottles for organic constituents.

(2.12) Cleaning Procedure

All glassware and equipment that comes into contact with the sample should be cleaned in the following way before each use:

- 2.12.1 Wash with a non-phosphate detergent solution.

LEACHATE 2

- 2.12.2 Rinse twice with tap water.
- 2.12.3 Rinse twice with reagent water.
- 2.12.4 Wash with 10% nitric acid.
- 2.12.5 Rinse several times with reagent water.
- 2.12.6 Store bottles filled with 10% nitric acid, until ready to use.
- 2.12.7 Rinse several times with reagent water before use.
- 2.12.8 Rinse clean oven dried bottles with methylene chloride, followed by methanol, for organic constituents.

(3) Reagents

- 3.1 Acetic acid, 0.5 N. Dilute 29.4 mL of concentrated acetic acid (ACS grade) to 1000 mL with reagent water.
- 3.2 Reagent water, Type IV (ASTM Specification D 1193). For organic parameters, the reagent water should be free of any organic substances to be analyzed (ASTM Type 1).
- 3.3 Nitric acid, 10% (v/v). Add 100 mL of concentrated nitric acid (ACS grade) to 900 mL of reagent water.
- 3.4 Nitrogen gas, pre-purified, scrubbed through a molecular sieve.

(4) Separation Procedure

If the sample contains a distinct liquid and a solid phase, separate it into its component phases using the following procedure:

- 4.1 Determine the dry weight of the solids in the sample at 60 °C, using a well homogenised sample. Use this weight to determine the amount of material to be filtered.
- 4.2 Assemble the filtration unit with a filter bed consisting of a 0.45 µm pore size membrane filter and a coarse glass fibre pre-filter upstream of the membrane filter (per manufacturer's instructions).
- 4.3 Select one or more blank filters from each batch of filters. Filter 50 mL portions of reagent water through each test filter and analyze the filtrate for the analytical parameters of interest. Note the volume required to reduce the blank values to acceptable levels.
- 4.4 Wash each filter used in the leach procedure with at least this pre-determined volume of water. Filter under pressure until no water flows through the filtrate outlet.
- 4.5 Remove the moist filter bed from the filtration unit and determine its weight to the nearest ± 0.01 g.

LEACHATE 3

- 4.6 Re-assemble the filtration unit, replacing the filter bed, as before.
- 4.7 Comminute the sample, with a mortar and pestle, to a size that will pass through the opening of the filtration unit (less than 9.5 mm).
- 4.8 Agitate the sample by hand and pour a representative aliquot of the solid and liquid phases into the opening of the filtration unit. Filter a sufficient amount of the sample to provide at least 60 g of dry solid material.
- 4.9 Pressurize the reservoir very slowly with nitrogen gas by means of the regulating valve on the nitrogen gas cylinder, until liquid begins to flow freely from the filtrate outlet.
- 4.10 Increase the pressure step-wise in increments of 0.5 kg/sq. cm to a maximum of 5 kg/sq. cm, as the flow diminishes. Continue filtration until the liquid flow ceases or the pressurizing gas begins to exit from the filtrate outlet of the filter unit.
- 4.11 De-pressurize the filtration unit slowly using the release valve on the filtration unit. Remove and weigh the solid material together with the filter bed to ± 0.01 g. Record the weight of the solid material.
- 4.12 Measure and record the volume and pH of the liquid phase. Store the liquid at 4 °C under nitrogen until required in Step 5.13.
- 4.13 Discard the solid portion, if the weight is less than 0.5% (w/v) of the aliquot taken. If not, proceed to Step 5.1.

Note: For mixtures containing coarse grained solids, where separation can be performed without imposing a 5 kg/sq. cm differential pressure, a vacuum filtration unit with a filter bed as per Step 4.2 may be used. Vacuum filtration must not be used, if volatile organic compounds are to be analysed.

(5) Extraction Procedure

- 5.1 Prepare a solid sample for extraction by crushing, cutting or grinding, to pass through a 9.5 mm mesh sieve. If the original sample contains both liquid and solid phases, use the solid material from Step 4.13. The structural integrity procedure, Step 6, should be used for monolithic wastes which are expected to maintain their structural integrity in a landfill, (e.g. some slags and treated solidified wastes).

Note: Do not allow the solid waste material to dry prior to the extraction step.

- 5.2 Determine the moisture content of the de-watered sample, by drying a suitable aliquot to constant weight at 60 °C in an oven. Discard the dried solid material.
- 5.3 Place the equivalent of 50 g dry weight of the de-watered undried material into a 1250 mL wide mouth cylindrical bottle. Use additional bottles, if a larger volume of leachate is required for the analysis.

LEACHATE 4

- 5.4 Add 800 mL (less the moisture content of the sample in mL) of reagent water to the bottle.
- 5.5 Cap the bottle and agitate it in the rotary extractor for 15 minutes before pH measurement.
- 5.6 Measure and record the pH of the solution in the bottle using a pH meter, calibrated with buffers at pH 7.00 and pH 4.00. The solution should be stirred during the pH measurement.
- 5.7 Proceed to Step 5.10.1, if the pH is less than 5.2.
- 5.8 Add a sufficient volume of 0.5N acetic acid if the pH is greater than 5.2 to bring the pH to 5.0 ± 0.2 .

Note: Maximum Amount of Acid: No more than 4 mL of 0.5N acetic acid per gram of dry weight of sample may be added during the entire procedure. If the pH is not lowered to 5.0 ± 0.2 with this amount, proceed with the extraction.

- 5.9 Cap the bottle and place it in the tumbling apparatus. Rotate the bottle and its contents at 10 rpm for 24 hours at room temperature (20 °C to 25 °C).
- 5.10 Monitor, and manually adjust the pH during the course of the extraction, if it is greater than 5.0 ± 0.2 . The following procedure should be carefully followed:
 - 5.10.1 Measure the pH of the solution after 1 hour, 3 hours and 6 hours from the starting time. If the pH is above 5.2, reduce it to 5.0 ± 0.2 by addition of 0.5N acetic acid. If the pH is below 5.0 ± 0.2 , do not make any adjustments.
 - 5.10.2 Adjust the volume of the solution to 1000 mL with reagent water, if the pH is below 5.0 ± 0.2 after 6 hours.
 - 5.10.3 Measure and reduce the pH to 5.0 ± 0.2 , if required, after 22 hours and continue the extraction for an additional 2 hours.
- 5.11 Add enough reagent water at the end of the extraction period so that the total volume of liquid is 1000 mL. Record the amount of acid added and the final pH of the solution.
- 5.12 Separate the material into its component liquid and solid phases as described under the Separation Procedure, Step 4. Discard the solid portion.

Note: It may be necessary to centrifuge the suspension at high speed before filtration, for leachates containing very fine grained particles.
- 5.13 Calculate the amount of free liquid from Step 4.12 corresponding to 50 g of the dry solid material. Add this amount to the leachate from Step 5.12.

LEACHATE 5

Note: If the analysis is not performed immediately, store separate aliquots of the leachate at 4 °C, after adding appropriate preservatives for the analytical parameters of interest (See "A Guide to the Collection and Submission of Samples for Laboratory Analysis", Ontario Ministry of the Environment, July 1979).

- 5.14 Analyze the combined solutions from Step 5.13 for contaminants listed in Schedule 4, that are likely to be present.
- 5.15 Report concentrations of contaminants in the combined leachate and the free liquid solution as mg/L.
- 5.16 Carry a blank sample through the entire procedure, using dilute acetic acid at pH 5.0 ± 0.2 .

6.0 Structural Integrity Procedure

This procedure may be required prior to extraction for some samples as indicated in Step 5.1. It may be omitted for wastes with known high structural integrity.

Procedure

- 6.1 Fill the sample holder with the material to be tested. If the sample of the waste is a large monolithic block, cut a portion from the block measuring 3.3 cm in diameter by 7.1 cm in length. For a treated waste (e.g. solidified waste) samples may be cast in a form with the above dimensions for the purposes of conducting this test. In such cases, the waste should be allowed to cure for 30 days prior to further testing.
- 6.2 Place the sample holder in the structural integrity tester, then raise the hammer to its maximum height and allow it to fall. Repeat this procedure 14 times.
- 6.3 Remove the material from the sample holder, and proceed to Step 5.2. If the sample has not disintegrated, it may be sectioned; alternatively use the entire sample (after weighing) and a sufficiently large bottle as the extraction vessel. The volume of reagent water to be initially added is 16 mL/g of dry sample weight. The maximum amount of 0.5N acetic acid to be added is 4 mL/g of dry sample weight. The final volume of the leachate should be 20 mL/g of dry sample weight.

STRUCTURAL INTEGRITY TESTER

TEST METHOD FOR
THE DETERMINATION OF "LIQUID WASTE"
(SLUMP TEST*)

1) Sampling

Obtain a representative sample of the waste to be tested.

2) Equipment

2.1 Mould - the representative waste sample shall be formed in a mould, in the form of the frustum of a cone with the base 200 mm in diameter, the top 100 mm in diameter, and the height 300 mm. The base and the top shall be open and parallel to each other and at right angles to the axis of the cone. The mould shall be made of a metal that is chemically resistant to the wastes to be tested and that has a thickness that is at least 1.5 mm. It shall be provided with foot pieces and handles as shown in Figure 3.

2.2 Tamping Rod - the rod shall be round, straight, and steel with a diameter of 16 mm and a length of 600 mm. One end shall be rounded to a hemispherical tip with a diameter of 16 mm.

3) Procedure

3.1 Dampen the mould and place it on a flat moist, non-absorbent (rigid) surface. Hold the mould firmly in place during filling by standing on the two foot pieces. From the sample of the material obtained, immediately fill the mould in three layers, each approximately one-third the volume of the mould.

Note: 1) The test must be carried out at a temperature of not less than 10°C.

2) One-third of the volume of the slump mould fills it to a depth of 70 mm. Two-thirds of the volume fills it to a depth of 160 mm.

3.2 Rod each layer with 25 strokes of the tamping rod. Uniformly distribute the strokes over the cross-section of each layer. For the bottom layer this will necessitate inclining the rod slightly and making approximately half of the strokes near the perimeter, and then progressing with vertical strokes spirally toward the center. Rod layers throughout their depth. For the second layer and the top layer, the strokes must just penetrate into the underlying layers.

* The method is based on the Canadian Standards Association test method for determining the slump of concrete (A23.2-5C).

SLUMP

- 2 -

- 3.3 When filling and rodding the top layer, heap the material above the mould before rodding is started. If the rodding operation results in subsidence of the material below the top edge of the mould, add additional material to maintain an excess of material above the top of the mould. After the top layer has been rodded, the excess material shall be screeded off to the level of the top of the mould. Remove the spilled material from the base of the mould.
- 3.4 Withdraw the mould immediately from the material by raising it carefully in a vertical direction. The operation of raising the mould shall be performed in approximately 5 seconds by a steady upward lift with no lateral or torsional motion. The entire operation from the start of the filling through removal of the mould shall be carried out without interruption and shall be completed within 2 minutes.
- 3.5 Determine the slump immediately after by measuring the difference between the height of the mould and the average height of the top surface of the material after subsidence.

Notes: 1) Waste samples that break or slump laterally give incorrect results. When this condition occurs the test shall be repeated with a new sample.

2) If two consecutive tests on a sample of material show a falling away or shearing off of a portion of the material from the mass of the specimen, the material probably lacks necessary plasticity and cohesiveness for the slump test to be applicable.

3) Duplicate tests on two different portions of the sample should not vary more than 10 mm.

4) Report

- 4.1 Record the slump in millimeters to the nearest 10 mm of subsidence of the sample during the test.

(b) the amount set out opposite the service in Schedule 15 or 47.7 cents multiplied by the applicable individual unit value for such service set out opposite the service in Schedule 16, as the case may be. O. Reg. 348/85, s. 1.

2. Subsection 67 (2*h*) of the said Regulation, as made by section 2 of Ontario Regulation 799/84, is revoked and the following substituted therefor:

(2*h*) The amount payable by the Plan for an insured service rendered by a physician in Ontario to an insured person on or after the 1st day of January, 1985 and before the 1st day of April, 1985 is the amount set out opposite the service in Schedule 15 as it existed on the 20th day of June, 1985 or 47.7 cents multiplied by the individual applicable unit value for such service set out opposite the service in Schedule 16, as the case may be.

(2*i*) The amount payable by the Plan for an insured service rendered by a physician in Ontario to an insured person on or after the 1st day of April, 1985 is the amount set out opposite the service in Schedule 15 or 47.7 cents multiplied by the individual applicable unit value for such service set out opposite the service in Schedule 16, as the case may be. O. Reg. 348/85, s. 2.

3. Schedule 15 to the said Regulation, as remade by section 3 of Ontario Regulation 799/84, is revoked and the following substituted therefor:

Schedule 15

Schedule of Benefits

PREAMBLE

A. General

1. The rates listed in this Schedule of Benefits are the maximum payments which can be made by the Ontario Health Insurance Plan.

2. Insured medical services are limited to the services which are medically necessary, which are listed in this Schedule of Benefits and which are not specifically excluded by legislation or regulation. (See Appendix for list of specific exclusions).

3. Additions, deletions or other modifications of the Schedule of Benefits require recommendation by the Ontario Health Insurance Plan. Such recommendations are made in consultation with the Ontario Medical Association.

4. This Schedule is a public document and frank discussion with patients regarding the listed rates is recommended.

5. Claims for services which are not listed in the Schedule or which are listed as N.A.B. (not a benefit) or which are excluded as benefits by legislation or regulation should not be submitted to the Plan. Such services may be charged directly to patients or others requesting them.

6. The principles governing proper professional charges are incorporated in the Regulations (Medicine) of the Health Disciplines Act.

7. Each physician who participates in the care of a patient is entitled to compensation commensurate with the services he renders.

8. Whenever possible, the physician should acquaint the patient or person financially responsible with his obligations to those concerned with his care. This is particularly important where supportive or concurrent care is rendered or when a consultation and/or procedure are being arranged.

9. Each physician participating in the care of a patient should render to the patient, or to the financially responsible party, an itemized statement of charges for professional services.

10. Each physician participating in the care of a patient should, on request, send a receipt to the patient for all payments made by him.

11. If fees are collected by an organized group, the name of the physician rendering the service should be clearly shown on the bill or claim card.

12. Claims may be submitted for services which a patient receives from the team of staff man, resident, intern and clerk in a teaching unit, provided that the conditions as set out hereunder apply.

On October 10, 1972, the Minister of Health confirmed that the joint recommendations of the College and the O.M.A. governing the charging of fees for services provided by interns and residents in clinical teaching units are acceptable to the Ministry of Health. In his letter the Minister made it very clear that he is looking to the College and the Medical Schools to ensure that the ethical rules governing these billing procedures are followed meticulously in all cases.

It has been carefully explained that the responsible staff man must be present in the clinical teaching unit at the time the services are rendered and must be identified to the patient at the earliest possible moment. No fees are to be charged for services given by the intern or resident prior to this identification taking place. The following rules are now in effect:-

When patient care is rendered in a clinical teaching unit or other setting for clinical teaching by a health care team, the physician responsible shall be personally identified to the patient. His relationship to the team shall be defined by the clinical teaching unit Director and his role must be known to the patient and other members of the team. He shall assume full responsibility for the appropriateness and the quality of the services rendered.

Specific regulations must vary with the service and form of care being delivered:-

- (a) In order to claim for physical procedures being carried out by an intern or resident, the responsible staff man must be in the clinical teaching unit and immediately available to intervene.
- (b) In psychotherapy where the presence of the staff man would distort the psychotherapy milieu, it is appropriate for the staff man to claim for psychotherapy when a record of the interview is carefully reviewed with the resident and the procedure thus supervised. However, the time charged by the staff man may not exceed the total time spent by him in both such interview and in direct supervision.
- (c) In other departments or services, the staff man should only claim for visits on the days when actual supervision of that patient's care takes place through the presence of that staff man in the clinical teaching unit on that day. This, of course, involves a physical visit to the patient and/or a chart review with detailed discussion with the other member(s) of the health team.
- (d) In those situations where on a regular basis a staff member might supervise concurrently multiple procedures or services through the use of other members of the team, the total claims made by the staff man shall not exceed the amount that the staff man might make in the absence of the other members of the team.

Any claim rendered should be in the name of the responsible staff man.

13. Charges for missed appointments are not benefits of OHIP.

PREAMBLE

B. Terms and Definitions:

Call or Visit: is the service by a physician to a patient for assessment and/or treatment.

1. Consultations:

- (a) Consultation refers to the situation where a physician, in light of his professional knowledge of the patient, requests the opinion of another physician competent to give advice in this field, because of the complexity, obscurity or seriousness of the case or because another opinion is requested by the patient or an authorized person acting on his behalf. The consultant is obliged to perform a general or specific assessment, review the laboratory or other data and submit his findings, opinions and recommendations in writing to the referring physician.
- (b) If a consultant is requested by a physician on duty in the emergency department to see a patient in consultation, the former may charge a consultation fee for this service. If the consultant is requested to perform this same service by a resident or intern, the former may charge a general or specific assessment according to his specialty.
- (c) Consultations required by hospital by-law and/or statute are not insured service except where contrary indications are noted in this Schedule.
- (d) For laboratory and procedural benefits connected with consultations, see listings of Diagnostic and Therapeutic Procedures and Laboratory Medicine.
- (e) A consultation is not to be claimed as such when:
 - (i) The patient presents himself to a consultant's office without prior knowledge of the primary physician.
The sending of a report to the primary physician under these circumstances does not justify a consultation.
 - (ii) The primary physician is not asked for professional advice but is simply asked by the patient for the name of a specialist in a particular field and the patient seeks out the specialist himself.
- (f) A repeat consultation requires all of the criteria of a full consultation and implies interval care by the primary physician. The situation in which the consultant requests the patient to return for a later examination is not a repeat consultation.
- (g) A limited consultation may involve all the components of a full consultation but is less demanding, and in terms of time, normally requires substantially less of the physician's time than the full consultation.
- (h) A diagnostic radiology consultation applies when radiographs made elsewhere are referred to a radiologist for his written opinion or when a radiologist is required to make a special visit at Night (5:00 p.m. to 7:00 a.m.) or Saturdays, Sundays and Holidays to consult on the advisability of performing a diagnostic radiological procedure which eventually is not done. A consultation does not apply when the radiographs referred to above are used for comparison purposes with radiographs made in the consultant's facilities.
- (i) A diagnostic laboratory medicine consultation applies when tissue, slides, and/or specimens are referred to a second pathologist not in the same institution for a written opinion. It includes secretarial or other assistance but does not apply when the above are used for comparison with tissue, slides, materials or tests done in the consultant's facilities. When a diagnostic laboratory medicine consultation fee is claimed, LB21 may not also be claimed.
- (j) A laboratory medicine consultation or repeat consultation applies when a laboratory medicine physician is requested to examine a patient and provide a written opinion.
- (k) A diagnostic nuclear medicine consultation applies when nuclear medicine studies are referred to a nuclear medicine specialist for a written opinion, or when the nuclear medicine physician is required to make a special visit at Night (5:00 p.m. to 7:00 a.m.) or Saturdays, Sundays and Holidays to consult on the advisability of performing a nuclear medicine procedure which eventually is not done. A consultation does not apply when procedures done elsewhere are used for comparison purposes with nuclear medicine studies made in the consultant's facilities.
- (l) A nuclear medicine consultation or repeat consultation applies when a nuclear medicine specialist is requested to examine a patient and provide a written opinion, all of which takes a greater amount of time and effort than a nuclear medicine study would normally require. It may be done in conjunction with a nuclear medicine study but if so, the lesser professional fee (P_2) rather than the greater fee (P_1) should be claimed in addition to the technical fee (T).
- (m) Some nuclear medicine specialists have other specialist qualifications which allow them to claim another consultation (e.g. internal medicine). A nuclear medicine consultation or repeat consultation may be claimed in lieu of another consultation (e.g. internal medicine) but would not be combined with such a consultation by the same consultant.
- (n) A prenatal consultation by a paediatrician applies when a physician considers a foetus of greater than 20 weeks gestation to be at risk or in jeopardy by reason of continuation of pregnancy in the presence of maternal and/or foetal distress, and requests the opinion of a paediatrician competent to give advice in this field. The paediatrician shall perform a general or specific assessment, review laboratory and other data and submit his findings and recommendations in writing to the referring physician. Such a consultation does not preclude the paediatrician from a post-natal consultation on the infant.
- (o) A special surgical consultation may apply when a surgeon provides all the components of a regular consultation but is required to spend at least fifty minutes with the patient (exclusive of any tests) in consultation because of the very complex, obscure or serious nature of the problem. The surgeon should claim \$86.70 for special consultations on an I.C. basis (A935). See para 32 section B.

PREAMBLE

- (p) An emergency physician consultation applies when a patient is referred by another physician (other than an E.R. physician) who has seen and examined the patient and requested the opinion of an emergency room physician because of the complexity, obscurity or seriousness of the case. The consultant shall perform the necessary assessment, review the laboratory, x-ray or other data and submit his findings, opinions and recommendations in writing to the referring physician. A copy of the E.R. chart does not constitute a consultation report. This consultation is not chargeable for the routine transfer of care to the E.R. nor for the provision of treatment for a previously diagnosed condition. It does not apply to patients who present themselves to the E.R. or are brought by people acting on their behalf. It is anticipated that these consultations will replace some of the consultations that would otherwise be provided by consultants in other branches of medicine. If the consultation leads to admission to hospital, no separate fee is chargeable for the admission assessment by the same physician. The consultation fee for a specialist in emergency medicine (F.R.C.P.) is \$42.80 (HD55); for all others, \$30.60 (HD65).

Note: OHIP benefits for consultations normally are limited to one consultation per year, per patient, by any one physician. However, if the same patient is referred to the same consultant a second time within the year with a clearly defined unrelated diagnosis, one additional consultation may be claimed per year.

2. General Assessment: shall comprise a full history, an enquiry into, and an examination of all parts or systems (and may include a detailed examination of one or more parts or systems), an appropriate record, and advice to the patient.*

OHIP benefits for general assessments normally are limited to one per year per patient by any one physician. However, if the same patient presents again within the year to the same physician with a clearly defined new diagnosis, one additional general assessment may be claimed per year. In the case of a patient who proceeds normally to hospital, the admitting physician may claim one additional general assessment per year provided 90 days have elapsed since the last general assessment rendered (anywhere) to that patient by the admitting physician. If the patient doesn't qualify for a general assessment by the admitting physician, he may claim a general re-assessment.

3. General Re-Assessment: shall comprise the same services as a general assessment except that the history need not include all the detail already obtained in the original general assessment.*

OHIP benefits for general re-assessments, except for hospital admission re-assessments, are limited to two per year, per patient, by any one physician.

4. Specific Assessment: shall comprise a full history of the presenting complaint, enquiry concerning, and detailed examination of the affected part, region or system, as needed to make a diagnosis, and/or exclude disease and/or assess function, an appropriate record, and advice to the patient.* (This may vary among sections.)

Physicians qualified in two specialties (EENT for example) may only claim for one visit, e.g.: a consultation (if referred) or a specific assessment (if non-referred), if both systems are examined during the same visit. However, two consultations or two specific assessments, etc. may be claimed if both systems are examined, each on a separate visit.

OHIP benefits for specific assessments normally are limited to one per year, per patient, by any one physician. However, if the same patient presents again within the year to the same physician with a clearly defined new diagnosis, one additional specific assessment may be claimed per year.

5. Specific Re-Assessment: shall comprise a full relevant history and a comprehensive physical examination of one or more systems but not requiring an evaluation of the patient as a whole.* This service is the admission assessment when the patient has been seen prior to admission in the same illness. It is included in the surgical fee except for those procedures marked I.O.P.
6. Partial Assessment: shall comprise a history of the presenting complaint, the necessary physical examination, an appropriate record and advice to the patient. It also applies to subsequent visits for assessing the response to treatment and/or advice provided in a previous service.
7. Intermediate Assessment: is a primary care service for physicians providing general practice or paediatric services and is a more extensive assessment than a minor assessment. It shall comprise a history of the presenting complaint(s), enquiry concerning and examination of the affected part(s), region(s), or system(s) or emotional disorder as needed to make a diagnosis, exclude disease and/or assess function, an appropriate record, and advice to the patient.*
8. Multiple Systems Assessment: shall comprise a detailed history and examination of more than one system, part or region, an appropriate record and advice to the patient.
9. Minor Assessment: is a brief assessment comprising the necessary history, examination of the affected part or region, an appropriate record and advice to the patient.
10. Mini Assessment: applies when a physician examines and/or treats a patient for a completely unrelated problem in addition to the examination/treatment of a W.C.B. related problem (for which the W.C.B. will only pay a minor assessment) during the same office visit. The fee for the mini assessment is \$5.90 (A008).

*For laboratory and other investigation performed in conjunction with a consultation or visit, see Diagnostic and Therapeutic Procedures and Laboratory Medicine.

PREAMBLE

11. Re-Assessments (by physician on duty in the Emergency Department): one re-assessment may be charged when, at least two hours after the original assessment is completed (including appropriate investigation and necessary treatment), a subsequent assessment indicates that further provision of care and/or investigation is required and performed. Re-assessments are not to be claimed for discharge assessments nor when the patient is admitted by the physician on duty in the Emergency Department, nor when this assessment leads directly to referral for consultation.
 12. Well Baby Care: the periodic visits of a well baby during the first two years of life involving complete examination with necessary weight and measurements and instructions to the parent(s) regarding health care.
 13. Annual Health or Annual Physical Examinations (Including Primary and Secondary School Examinations): shall comprise all the elements of a general assessment as it pertains to an individual after the second birthday who presents and reveals no apparent physical or mental illness.
OHIP benefits for any one physician are limited to one Annual Health Examination per patient per year after the second birthday. To qualify, an Annual Health Examination normally must be requested by the patient rather than a third party. Regulation 452 of Revised Regulations of Ontario, 1980 under the Health Insurance Act, examinations for the purpose of "legal requirements or proceedings" are excluded from coverage. However, it is recognized that an Annual Health Examination will satisfy some or all of the requirements for examinations required by statute but excluded by the above mentioned Regulation. In such instances and where a prior claim for an Annual Health Examination has not been submitted to the Plan in the previous twelve months for that patient, it would be appropriate to submit a claim to OHIP for this service. The OHIP benefit in these cases covers the Annual Health Examination only and not any charges peculiar to the legal requirements, such as charges for the completion of forms.
 14. Long Term Institutional Care: includes the listings for consultations, assessments and other visits to patients in chronic care hospitals, convalescent hospitals, nursing homes and other institutions in which such patients are covered by extended care legislation.
Admission Assessments to Long Term Care Institutions:
Type 1 - applies when the admitting physician has not performed a consultation, general assessment or general re-assessment prior to admission and when he carries out a general assessment (on admission) and provides a report for the medical record.
Type 2 - applies when the admitting physician has performed and claimed for a consultation, general assessment or general re-assessment prior to admission, makes an initial visit and records an admission note describing the condition of the patient following admission.
Type 3 - applies when the admitting physician readmits a patient after a 7 day stay in another institution; the admitting physician shall carry out a general re-assessment and provide a report for the medical record.
- Note: When a physician already is in the institution and is asked to assess one of his own in-patients on a non-emergent or an emergent basis, the subsequent visit listings apply. However, if he is asked to assess another physician's patient on an emergency basis, the General Listings should be used.
15. Subsequent Visits to Long Term Care Institutions: include the supervisory care as well as the active treatment of acute intercurrent illness when the physician is already in the long term care institution. The supervisory care component includes discussion with the patient and/or family and/or examination of the patient and also includes as required, discussion with the nurse, chart review and annotation of the chart. When acute intercurrent illness requires a special visit, the appropriate fees under General Listings and Premiums apply. For acute intercurrent illnesses requiring visits after the monthly maximums have been claimed, extra visits should be made on an I.C. basis (W021 - \$11.50).
 16. Pre-dental General Assessment: is the history and examination of a patient required prior to dental surgery under anaesthesia in hospital. A diagnosis is not required by OHIP for this service.
 17. Newborn Care: is the routine care of a well baby up to ten days of age and should include a complete physical examination of the baby and necessary instructions to the mother. The service shall involve at least two visits and normally may not be claimed for the same patient by more than one physician.
When a well baby is transferred to another hospital (because of the mother's state of health, for example) claims for newborn care by a physician at each hospital may be appropriate.
 18. Low Birth Weight Baby Care: is the care of a baby weighing less than 2.5 kilograms at birth.
 19. Psychotherapy: is any form of treatment for mental illness, behavioural maladaptations, and/or other problems that are assumed to be of an emotional nature, in which a physician deliberately establishes a professional relationship with a patient for the purposes of removing, modifying, or retarding existing symptoms, or attenuating or reversing disturbed patterns of behaviour, and of promoting positive personality growth and development. Accordingly, therefore, a psychotherapeutic procedure may be claimed if a half hour or major part thereof has been spent by a physician in such treatment of the patient. The minimum time period for psychotherapy (to be charged as such) is twenty minutes. In order to claim for a major portion of a second or subsequent time interval of psychotherapy for the same patient during the same visit, the preceding time interval must be a full 30 minutes of psychotherapy. When psychotherapy extends beyond thirty minutes, the major part (16 minutes) of the next half hour must be spent with the patient to qualify for an additional half hour fee. Similarly, after one hour of psychotherapy, the major part (16 minutes) of the next half hour, must be spent to qualify for an additional half hour, and so on.

PREAMBLE

20. **Counselling:** as distinct from psychotherapy, counselling is that form of activity in which the physician engages in an educational dialogue with the patient(s), on an individual or group basis wherein the goal of the physician and patient(s) is to become aware of the patients' problems or situation and of modalities for prevention and/or treatment. Counselling is not to be claimed for the advice that is a normal part of any consultation or assessment, for ongoing treatment or as a substitute for patient assessment fees. Counselling must be rendered personally, by the attending physician.
21. **Genetic Counselling:** includes interviewing the appropriate family members, the collection and assessment of adequate clinical and genetic data to make a diagnosis, construct a pedigree and assess the risks to persons seeking advice. It includes imparting this information and the various alternatives to the appropriate family members for dealing with the problem in such a way that they can make informed decisions about the genetic problem.
22. **Documentation:** when a physician examines or treats a patient, an appropriate record of such service should be made. (See Appendix B).
23. **Visit for Procedure:** when the sole reason for an office visit is the performance of a certain procedure, the listed benefit for the procedure will apply. (See Diagnostic and Therapeutic Procedures Preamble for exceptions). When procedures are carried out in the office, emergency or outpatient department on an elective basis, special visit fees should not be claimed in addition to the procedural fee. When procedure(s) are carried out by a physician's employee(s) under the direct supervision of the physician, the usual claims may be made for procedure(s) which are generally and historically accepted as those which may be carried out by the nurse or other medical assistant in the employ of the physician. "Procedures" in this context do not include such services as assessments, consultations, psychotherapy, counselling, etc. Direct supervision requires that during the procedure the physician be physically present in the office or clinic at which the service is rendered.** While this does not preclude the physician from being otherwise occupied he must be in personal attendance to ensure that procedures are being performed competently and he must at all times be available immediately to approve, modify or otherwise intervene in a procedure as required in the best interests of the patient.
For physiotherapy procedures performed under direct physician's supervision as detailed above, see Code G467 on Page 63.
24. **Health Examination:** this may vary in extent according to the purpose for which required (e.g. pre-employment, insurance, free from infection, etc.). This is not a benefit of OHIP and the fee should be according to the type of assessment necessary for this purpose and billed to the patient or party requesting the service.
25. **Age:** (unless otherwise specified)
Newborn - up to 10 days of age.
Infant - up to 2 years.
Child - up to and including 15 years.
Adolescent - up to and including 17 years.
Adult - 18 years or over.
26. **Most Responsible Physician:** is the attending physician who is primarily responsible for the day to day care of the patient in hospital. In cases of unusual severity where the consultant assumes the role of the most responsible physician, the consultant may claim on a per visit basis and the family physician may claim supportive care. Where the family physician remains the most responsible physician and requests only a consultation, the family physician may claim on a per visit basis and the consultant may claim a consultation only.
27. **Transferral and Referral:**
 - (a) A referral takes place when one physician requests for his patient the services of another. The services of the latter may consist of:
 - (i) an opinion (i.e. a consultation).
 - (ii) diagnostic tests or procedures (e.g. skin test, biopsy, etc.).
Note: In such cases the referring physician continues to treat the case himself.
 - (iii) treatment (surgical or medical).
 The referring physician's OHIP registration number must be included on the claim submission.
 - (b) A transferral, as distinguished from a referral, takes place where the responsibility for the care of the patient is completely transferred permanently or temporarily, from one physician to another (e.g. where the first physician is leaving temporarily on holidays and unable to continue to treat the case). Physicians who are substituting for other physicians should consider that patients of the latter have been temporarily transferred (not referred) to their care. The physician to whom the patient is transferred should be regarded as substituting for the other physician. Where the care of the patient

**Some procedures may not require the physical presence of a physician for adequate supervision. Exceptions to this requirement of direct supervision may be made upon recommendation of the Ontario Medical Association and the College of Physicians and Surgeons of Ontario.

PREAMBLE

involves a benefit containing several components such as surgery, the physicians may consider the surgical benefit a team benefit and decide among themselves how each is to be compensated; traditionally physicians in these circumstances have reciprocated by exchanges of coverage for each other. When physicians routinely or frequently substitute for each other in providing hospital visits to registered bed patients in active treatment hospitals, e.g. weekend coverage or daily rounds by various members of a group, the most responsible physician may claim for all the visits.

28. **Concurrent Care:** applies when the family physician remains the most responsible physician but because of the seriousness or complexity of the condition, requests continued directive care by a consultant. The family physician may claim on a per visit basis and the consultant may also claim on a per visit basis not to exceed four such claims during the first week of concurrent care and not to exceed two such claims each week thereafter while the patient's condition remains serious - this arrangement being agreeable to both physicians.
29. **Multidisciplinary Care:** applies when the complexity of the medical condition requires the services of several physicians in different disciplines. In such cases, each physician should render a separate account on a per visit basis. This does not refer to a situation where a single benefit for a team of physicians is listed in this Schedule.
30. **Supportive Care:** is the care rendered in hospital by the referring physician, who is not actively treating the case (e.g. writing orders), to a patient under the care of another physician, at the desire of the patient or family, for purposes of liaison or reassurance. The physician may claim for this care on a per visit basis not to exceed four such claims during the first week of supportive care (determined by the date of the first supportive care visit) and not to exceed two such claims each week thereafter. If medical complications develop or are present in the post-operative period which require active management by the referring physician, hospital medical care fees should be applied not supportive post-operative fees.
31. **Terminal Care (In Hospital):** applies to one designated physician responsible for the care of a terminally ill patient suffering from malignant disease. Terminal care will be deemed to start when there is no aggressive treatment of the underlying disease process and care is directed to maintaining the comfort of the patient until death occurs. Terminal care should be claimed retroactively after death on the basis of visits actually rendered for a period not to exceed four weeks prior to death. Terminal care visit fees as described above do not apply when unexpected death occurs after prolonged hospitalization for another diagnosis unrelated to the cause of death. Visits to patients in hospital may be claimed at \$13.00 (C882) by general and family practitioners and at \$13.90 (C882) by specialists. For patients receiving terminal care in chronic hospitals, the above fees should be claimed with codes H882 and H882 respectively.
32. **Independent Consideration - "I.C.":** Independent consideration may be given where a set fee is not listed in the Fee Schedule. Claims rendered under this heading should contain an explanation of the fee claimed. It is helpful to the Medical Consultant if claims for I.C. include an operative or consultation report and a comparison of the scope and difficulty of the procedure with other procedures in the Schedule.
33. **Specialist:** A specialist shall be defined (for purposes of application in the case of any given service within this Schedule) as one who holds a certificate from The Royal College of Physicians and Surgeons of Canada in the specialty which normally is considered to encompass the service in question.
A specialist rendering services outside of his specialty should use the codes and tariffs listed in the General Practice section of the Schedule.
34. **Differential Benefits:**
 - (a) Where only one procedural fee is listed, it shall apply to any physician rendering the service, regardless of specialty.
 - (b) Specialists providing primary care in a general practice setting shall claim the appropriate visit fees (as defined in the Preamble) listed under the heading Family Practice and Practice in General. Certain other non specialist services such as counselling and interviews are under the same heading for the use of any physician providing such services.
 - (c) Specialists in paediatrics who practice allergy may claim specialist fees for their allergy services regardless of the age of their patients.
35. **Referring Physician's Services:**
 - (a) For the services rendered prior to the operation, the referring physician should claim on a fee-for-service basis, for example:
 - (i) Visits as rendered.
 - (ii) In addition to (i) above, in acute cases if detained, he may claim detention fees if appropriate. See para. 45 p.xv.
 - (b) (i) For services rendered as an assistant during the operation, the referring physician should claim an assistant's fee.

PREAMBLE

- (ii) In cases in which the referring physician is required to be present in the interest of the patient but does not actually assist at the surgical procedure, he should claim on a hospital visit basis for this service.
- (c) For the services rendered after the operation, the referring physician may claim on the basis of supportive care fees as outlined in the schedule.

36. Assistants' Services:

- (a) The assistants' fees are determined by adding the listed basic units and time units and multiplying the total number of units by \$7.95. For all cases commencing after 5:00 p.m. and before midnight or on Saturdays, Sundays and Holidays or \$34.40 (C9998) for a case commencing after midnight and before 7:00 a.m. any night of the week, increase the total assistant's fee by 40% (E4008). For all cases commencing after midnight and before 7:00 a.m. any night of the week, increase the total assistant's fee by 50% (E4018).
 - (b) When a physician is required to make a special visit to the hospital to assist at surgery, he may charge a special visit premium of \$22.90 (C9988) for a case commencing after 5:00 p.m. and before midnight or on Saturdays, Sundays and Holidays or \$34.40 (C9998) for a case commencing after midnight and before 7:00 a.m. any night of the week. These premiums are in addition to the E400 and E401 premiums but apply only to the first patient treated on each special visit.
 - (c) The time units are computed by allowing one unit (\$7.95) for each 15 minutes or part thereof of time (up to two hours) spent by the assistant. When assisting for more than two hours per case, time units for periods in excess of two hours are computed by allowing two units for each 15 minutes or part thereof. Time for purposes of these calculations includes scrub time and time spent in the operating room. If claims are being made in coded form (see explanatory comments at front of Fee Schedule), the suffix B should be added to the fee code for the procedure. The basic units should be listed separately from the time units on the claim card.
 - (d) When multiple or bilateral surgical procedures are done during the same anaesthetic, the assistant's benefit shall be based on the basic units for the major procedure plus time. When bilateral procedures or surgical revisions are carried out at separate times with separate anaesthetics, the assistant shall be entitled to receive a full assistant's benefit for each procedure.
 - (e) In surgical procedures requiring more than one assistant, the second assistant shall compute his fee on the same basis as the first assistant. Each claim for second assistant should be accompanied by a statement from the operating surgeon confirming the necessity for his/her services.
 - (f) When a surgeon requires an assistant at a procedure for which no assistant's fee is listed, the assistant may calculate his fee by taking the number of basic units used by the anaesthetist, adding his time units and multiplying the total number of units by \$7.95.
 - (g) When assistants at surgery claim for procedures for which no assistants' fees have actually been listed in the schedule, the assistants should support their claims with a statement of explanation from the surgeon, confirming the medical necessity for their attendance.
- Note: Code M400B to be used by OHIP for services performed by an assistant where no assistant units are listed. All such services must be assessed for appropriateness by the OHIP Medical Consultant.
- (h) Where the attendance of a physician is requested by the patient's other medical attendants for the sole purpose of monitoring or special supportive care, and when the physician is in constant attendance, the fee shall be 3 units plus time (E0038).
 - (i) When an anaesthetic has begun and the operation is cancelled prior to commencement of surgery, the assistant who has scrubbed but is not required to do more, should claim 3 basic units plus time units (E0068). If the operation is cancelled after surgery has commenced, the procedural basic units plus time units will apply. If the procedure is cancelled prior to the induction of anaesthesia and the assistant is scrubbed, a subsequent hospital visit only may be claimed.

37. Anaesthetists' Services:

- (a) The tariff is for all types of anaesthesia. The fee is for professional services, including pre-anaesthetic evaluation and post-anaesthetic follow-up and all immediate supportive measures, and does not include the cost of materials used.
- (b) If an anaesthetist is requested by another physician to see a patient in consultation (see para. 1(a)) because of the complexity, obscurity or seriousness of the case prior to the administration of an anaesthetic, he may claim a consultation fee as well as the anaesthetic fee. If this consultation is provided less than 36 hours prior to the administration of an anaesthetic, this consultation should be claimed at \$53.50 under fee code E015. The routine pre-anaesthetic evaluation of the patient required by the Public Hospitals Act does not qualify as a consultation, regardless of where and when this evaluation is performed. Anaesthetic consultations do not apply when hospital, departmental by-laws, statutes or policies require automatic consultations on any patient requiring anaesthesia.
- (c) If an anaesthetist examines a patient prior to surgery and the surgery is cancelled prior to the induction of anaesthesia, he or she may claim a hospital visit fee for this service. When an anaesthetic has begun and the operation is cancelled due to a complication prior to the commencement of surgery, the anaesthetist should claim 4 basic units plus time (E006C). If the operation is cancelled after surgery has commenced, the procedural basic fee plus time units will apply.

*For laboratory and other investigation performed in conjunction with a consultation or visit, see Diagnostic and Therapeutic Procedures and Laboratory Medicine.

PREAMBLE

- (d) The anaesthetist's fees are determined by adding the basic and time units together and multiplying the sum by \$9.02. For cases commencing after 5:00 p.m. and before midnight or on Saturdays, Sundays and Holidays, increase the total anaesthetic fee by 40% (E400C). For cases commencing after midnight and before 7:00 a.m., any night of the week, increase the total anaesthetic fee by 50% (E401C).
- (e) When an anaesthetist is required to make a special visit to the hospital to administer an anaesthetic, he may claim a special visit premium of \$22.90 (C998C) for a case commencing after 5:00 p.m. and before midnight or on Saturdays, Sundays and Holidays or \$34.40 (C999C) for a case commencing after midnight and before 7:00 a.m. any night of the week. These premiums are in addition to the E400 and E401 premiums but only apply to the first patient treated on each special visit.
- (f) When an anaesthetist administers an anaesthetic to a patient under the age of one (E009) or over the age of seventy-five (E007), add one unit to the total fee. When an anaesthetist administers an anaesthetic to a patient of any age with an incapacitating systemic disease that is a constant threat to life or to a moribund patient who is not expected to survive for 24 hours with or without the operation, add one unit to the total fee (E008). Only one extra unit per patient who qualifies by virtue of age or health status, may be charged.
- (g) Basic units are listed for most procedures and include the value of all anaesthetic services except the actual time spent administering the anaesthesia, any modifying factors, or unusual detention with the patient (see paragraph n).
- (h) Except during maintenance of continuous conduction anaesthesia time units are computed by allowing one unit for each 15 minutes or part thereof of anaesthesia time (up to two hours); following the first two hours of anaesthesia, time units for periods in excess of two hours shall be computed on the basis of two units for each 15 minutes or part thereof; time units for periods in excess of eight hours shall be computed on the basis of three units for each 15 minutes or part thereof. Anaesthesia time begins when the anaesthetist is first in attendance with the patient for the purposes of creating the anaesthetic state and ends when he is no longer in personal attendance (when the patient may be safely placed under customary post-operative supervision).
- (i) If claims are being made in coded form (see explanatory comments at front of Fee Schedule), the suffix C should be added to the fee code for the procedure.
- (j) In special cases when the anaesthetic services of more than one anaesthetist are deemed necessary in the interest of the patient, the second anaesthetist shall charge 4 basic units (E001) plus time units for the time spent assisting the first anaesthetist.
- (k) When multiple or bilateral surgical procedures are done during the same anaesthetic, the anaesthetic benefit shall be based upon the basic units for the major procedure plus time. When bilateral procedures or surgical revisions are carried out at separate times with separate anaesthetics, the anaesthetist shall be entitled to receive a full anaesthetic fee for each procedure.
- (l) In procedures where no value is listed, or with I.C., the basic portion of the calculated value will be the same as listed for a comparable procedure considering the region and modifying conditions or techniques.
- (m) When a pump with or without an oxygenator and with or without hypothermia is employed in conjunction with an anaesthetic, the anaesthetic "Basic Units" will be 28 units; this replaces the listed basic units for the procedure. To compensate for variations in anaesthetic practice, special respiratory intensive care or detention for the purpose of intensive treatment of other types should be claimed for separately under the appropriate headings.
- (n) Controlled hypotension may be billed for (10 units) when it is carried out in association with anaesthesia using any technique to deliberately lower and maintain the mean blood pressure by at least 25%. Incidental hypotension from the use of any anaesthetic agent does not constitute controlled hypotension. The additional 10 units may be claimed under E004C.
- (o) When unusual detention with the patient before or after anaesthesia is essential for the safety and welfare of such patient, the necessary time will be valued on the same basis as indicated for the anaesthetic time.
- (p) For detention not associated with anaesthesia detention rates and criteria (see paragraph 45 on page xvii).
- (q) When the attendance of the anaesthetist is requested by the patient's other medical attendants for the purpose of monitoring or special supportive care, and when the anaesthetist is in constant attendance, the benefit shall be 3 units plus time. The code is E003C.
- (r) Introduction of a catheter for continuous conduction analgesia and anaesthesia in obstetrics has a basic value of 6 units. Maintenance and/or supervision may be claimed at one unit for each half hour of maintenance to a maximum of 5 units. No fee is chargeable for the first hour following introduction of the catheter and first dose. Time units for delivery may be claimed at one unit per quarter hour.
- (s) When a physician administers an anaesthetic and/or other medication prior to, during a procedure(s) or immediately after a procedure which he/she performs on the same patient, he/she should claim for the procedure(s) only. However, when a physician administers a pudendal, femoral, intercostal, sciatic, ilioinguinal, iliohypogastric, ulnar, median, or radial block in addition to performing a procedure, he may claim \$11.80 (G224) in addition to the procedure.
- (t) When hypothermia is used by the anaesthetist in procedures not specifically identified as requiring hypothermia, the basic value is 25 units. This basic value replaces the basic value listed in the Schedule for the procedure. When the basic value claimed is 25 units, the anaesthetic service may be claimed under code E002C.

PREAMBLE

- (u) When a patient is known to have malignant hyperthermia or there is a strong suspicion of susceptibility, and the anaesthetic requires full malignant hyperthermia set up and management, add 5 units to the anaesthetic claim (E012). This add-on does not apply to Z245 on page 69.
 - (v) Anaesthetic management for the emergency relief of acute upper airway (above the carina) obstruction (excluding choanal atresia) - basic 10 units (E013).
 - (w) When one anaesthetist starts a procedure and is replaced by another part way through a surgical procedure or delivery, the first anaesthetist should charge the appropriate basic fee plus time units and the second anaesthetist should charge for time units only. The second anaesthetist should use code E005C for such time units except in the case of continuous conduction anaesthesia; for which P015 (plus E100C) applies (see para. 37(r)). E002C, E003C, E004C, E005C qualify for the premiums E400C or E401C only if the case originally started within the time stated under para. 37(d) above.
Each anaesthetist should state on his/her claim card which part of the anaesthetic is being claimed and the time begun and completed.
 - (x) General anaesthesia for the purposes of this Fee Schedule includes all forms of anaesthesia except local infiltration.
 - (y) Maintenance/Supervision of epidural catheter for relief of pain (G247) see p.60. For visits rendered after 5 p.m. and before midnight or on Saturdays, Sundays and Holidays add 30% (E402). For visits after midnight but before 7 a.m. add 50% (E403).
38. General Listings: include the basic listings for consultations, assessments and other visits wherever they are rendered, except for non-emergency services to hospital or long-term care institution in-patients and for care rendered by a physician on duty in the emergency department. These latter services are listed separately in the Schedule.
39. Non-Emergency Hospital in-Patient Services: include the fee listings for consultations and other visits rendered to registered bed patients on a non-emergency basis.
- (a) When a patient has not been seen previously by the physician in charge, the first visit after admission may be claimed as a consultation or general or specific assessment. When the patient has been previously attended before admission, the first visit after admission may be claimed as a general re-assessment or specific re-assessment (depending on the specialty) if the patient has been seen before in the same illness. However when a patient is admitted to hospital by one physician and is subsequently transferred to another physician, only one general or specific assessment or re-assessment may be claimed per patient admission.
 - (b) Subsequent routine visits should be claimed as subsequent visits (minor assessments). Payments for hospital visits are usually limited to one per patient per day prior to the weekly and monthly limitations that apply after the patient has been hospitalized for 5 weeks, (6 weeks for paediatricians). However, it is not the intent of the Fee Schedule that visit fees be claimed for every day a patient is in hospital unless a physician actually visits the patient each day. For acute illnesses or exacerbation of original illness requiring hospital visits after 5 weeks of hospitalization, claims for extra visits should be made on an independent consideration basis.
 - (c) When a patient in hospital is referred by one physician to another, the second physician should not be limited by the "Subsequent Hospital Visit" formula for the number of hospital visits already rendered by the first physician. In other words, the second physician is entitled to claim for his visits up to 5 weeks just as if the patient was being attended to in hospital for the first time. If the patient is transferred to the care of another physician, the "Subsequent Hospital Visit" formula would apply just as it would if only one physician was involved in the care.
 - (d) When a physician is already in the hospital and is asked to assess one of his own in-patients on a non emergency or emergency basis, the subsequent hospital visit listings apply. However if he is asked to assess another physician's patient on an emergency basis, the General Listings apply.
40. Emergency Department - Physician on Duty Services: include the fee listings for minor and multiple systems assessments and re-assessments during regular and premium hours rendered by the physician on duty. Any physician on duty in the emergency department should claim these fees regardless of his specialty.
- The listings under the heading "Emergency Department - Physician on Duty" are meant to apply to those circumstances wherein either emergency or other physicians have elected or are required to be physically and continuously present in the Emergency Department or environs for an arranged designated period of time. In addition to applying to full or part time emergency room physicians who work pre-arranged shifts, these listings also apply to itinerant on-call physicians providing emergency room coverage who do not have an office for seeing patients and a permanent home in the community served by the hospital. When an on call physician practising in the area elects to be continuously present in the Emergency Department or environs for an arranged designated period of time because the volume of patients requires it, e.g. during a busy holiday period, the fees under Emergency Department - Physician on Duty (H001, H003, H004, etc.) should be charged after the patients responsible for the initial special visit have been examined and/or treated (and charged for under the A and K codes).
- When an emergency physician is required to make a special visit to the Emergency Department prior to or after his regular arranged designated period of time on duty, he may charge the appropriate fee under the General Listings plus the applicable special visit premium for the first patient assessed; all subsequent patients assessed during this visit to the hospital should be billed under the Emergency Department - Physician on Duty listings.
- When a physician is on duty in the Emergency Department, sees a patient and admits the patient to hospital, this physician may claim a minor or multiple systems assessment depending on the service initially provided. Either the patient's attending physician or the emergency department physician (but not both) may render and claim the hospital admission assessment. If the emergency department physician (instead of the attending physician) provides the admission general assessment, he may claim a general re-assessment (C004) as well as the initial assessment provided both services are actually rendered separately.

PREAMBLE

SPECIAL VISIT TO EMERGENCY OR O.P.D.

Consultation:

1. Consultation, patient not admitted:
The benefit for the consultation (or repeat consultation) plus the appropriate special visit surcharge (K99-) may be claimed.
2. Consultation, patient admitted:
 - (a) The benefit for the consultation (or repeat consultation) plus the appropriate special visit surcharge (K99-) followed by hospital visits (if rendered) may be claimed. However, if the consultant also is the "most responsible physician", he may not also claim a hospital in-patient consultation, repeat consultation, general or specific assessment, general or specific re-assessment since the initial consultation rendered in the emergency department serves as the admission assessment.
 - (b) If the consultant is not also the most responsible physician, the latter may claim the appropriate admission assessment.

Assessment:

1. Assessment, patient not admitted -
The benefit for the assessment (or re-assessment) plus the appropriate special visit surcharge (K99-) may be claimed.
2. General/specific assessment plus patient admission -
The benefit for the general or specific assessment plus the appropriate special visit surcharge (K99-) followed by hospital visits may be claimed. However, the admitting physician may not also claim a hospital in-patient general/specific assessment or reassessment since the initial general/specific assessment rendered in the emergency department serves as the admission.
3. Minor/intermediate assessment plus patient admission -
The benefit for the minor or intermediate assessment plus the appropriate special visit surcharge (K99-) may be claimed. In addition, the admitting physician may claim for a hospital in-patient general or specific reassessment if rendered.

Procedure:

Except for procedures for which the listed benefits specifically include the associated consultation or other assessment, claims may be made for both the procedure and the assessment.

Note:

If a physician has an office in the hospital and is called to assess a patient in the Emergency Department or O.P.D., the special visit premiums do not apply.

41. Emergency Department Equivalent:

An Emergency Department Equivalent is an office or other place (other than a hospital emergency department) in which a physician renders services as part of an emergency service being made available to the community.

"Emergency Department Equivalent" includes a place used by a physician to render services exclusively to the office practice patients of one or more physicians outside the office hours of those physicians if the place is open for patients to attend.

A place is an Emergency Department Equivalent only during the period of time that the emergency service is being made available.

A place may be an Emergency Department Equivalent notwithstanding that the physicians rendering services therein are not continuously present and only attend on call.

A physician may add a premium of 30% (E030) to the appropriate General Listings for services provided in an Emergency Department Equivalent if

- 1) the services were rendered on a Saturday, Sunday or holiday ("holiday" is defined in paragraph B.43(c) below);
- 2) the services were rendered on the day they were first requested; and,
- 3) the services were rendered for the purpose of dealing with an emergency.

42. Long-Term Institutional Care: See paragraph B. 14.

Premiums:

43. Special Visit Fees Applicable in Addition to Fees for Services Listed Under Consultations and Visits, Critical Care and Injections or Infusions (pages 1-18, 54, 58).

- (a) A special visit is one initiated by a patient or his representative where the physician is required to travel from one location to another to see the patient.

Subject to paragraphs (b) to (r), the appropriate special visit fee applies when a physician makes a special visit to his office even if the office is in the physician's home, or to the patient's home or other location (hotel, motel, roadside, ski slope, etc.), or to the Emergency Department, O.P.D., hospital or long-term care institution from a location outside any premises of, or operated by or on behalf of, the hospital or institution.

PREAMBLE

(b) A special visit may also involve an emergency call with sacrifice of office hours. The benefits for this type of special visit apply in a situation where the demands of the patient and/or the physician's interpretation of the patient's condition is such that the physician responds immediately and makes a special visit at the sacrifice of regular office hours.

(c) A special visit at night or on a Saturday, Sunday or holiday may be claimed when non-elective or emergent calls are made by the physician between 5:00 p.m. and 7:00 a.m. or are received and made on Saturdays, Sundays and Holidays. Holidays are defined for the purpose of this Schedule as New Year's Day, Good Friday, Easter Monday, Victoria Day, Canada Day, Civic Holiday, Labour Day, Thanksgiving, Remembrance Day, Christmas Day and Boxing Day. If any of these holidays fall on a Saturday or Sunday, the Friday before or Monday following will be recognized as the holiday.

(d) Only one special visit (daytime; emergency call with sacrifice of office hours; or nights, Saturdays, Sundays and Holidays) may be claimed for the same patient, same visit. Special visits only apply to non-elective or emergent calls and do not apply to non-referred or transferred obstetrics. Special visits do not apply to visits on regular rounds to registered bed patients nor do they apply to admission assessments of patients who have been admitted to hospital on an elective basis, regardless of the time performed.

(e) An elective home visit is a visit to a patient's home deemed medically necessary by the physician, initiated by the physician or the patient and carried out at any time convenient to the physician. Physicians providing such services should charge in addition to the appropriate fee under the heading General Listings, the premiums under paragraph 43(j) only, even if the elective visits are rendered at Night, on Saturdays, Sundays and Holidays.

If an institution has arranged to have quarters in the same or in a proximal building in order that a physician will be available to make visits to the institution, particularly at night, these are not considered to be "special visits" to the institution.

If a physician is called to pronounce a patient dead, a minor assessment may be claimed along with the appropriate surcharge for the special visit.

(f) When additional patients are assessed during special visits, the "additional patient" premiums are not normally applicable unless the additional patient himself qualifies for a special visit. However, extra patients seen during a home visit while the physician is there rendering a special visit to another patient also qualify for the "additional patient" premiums if an assessment is rendered. The maximum number of special visit premiums per special visit (to any location) is ten. Patients who drop in to the office while the physician is there for reasons other than rendering a special visit do not qualify for any of the special visit premiums. Extra in-patients seen during a special visit to a hospital or other institution do not qualify for the "additional patient" premiums unless the physician has been asked specifically to see these extra patients as well.

(g) No special visit fee is chargeable in respect of services rendered in a place, other than a hospital or long term care facility, that is open for patients to attend.

No special visit fee is chargeable for services rendered at any time in an Emergency Department Equivalent (see paragraph B.41 above), whether or not the services qualified for the Emergency Department Equivalent premium.

(h) When no consultation or visits may be claimed e.g. for post-op hospital visits by operating surgeon, the minimum premiums for special visits apply for additional patients seen during a special visit. Minimum premiums also apply to additional patients seen requiring Critical Care (excluding services to a critically ill patient where team fees apply), Injections or Infusions.

(i) K992, C992, K993, C993 are also applicable to assistant and/or anaesthetist at non-elective surgery.

PREAMBLE

44. Special Care Unit (e.g. I.C.U. or C.C.U.):

For each patient seen on visit to I.C.U. or C.C.U. (excluding supportive care, respiratory care and neonatal intensive care)

C101, add to all such hospital visits \$6.50

Note: Where visit is not chargeable, e.g. post operative care by surgeon, claim only C101 (excluding Supportive Care, Respiratory Care, Hyperbaric Therapy and Neonatal Intensive Care)

45. Detention: may be charged when a physician is required to spend considerable extra time in active treatment of the patient (and to the exclusion of all other work). Claims for detention must be substantiated by an explanation on the claim card or in an accompanying letter, and should be made on an "I.C." basis according to the following guidelines:

After 20 minutes if the physician spends more than this amount of time providing a minor, partial or intermediate assessment or subsequent hospital visit;

After 40 minutes if the physician spends more than this amount of time providing a specific or general re-assessment or multiple systems assessment;

After 1 hour if the physician spends more than this amount of time providing a consultation, repeat consultation, specific or general assessment, multi systems assessment.

Detention is not meant to apply to procedural items or obstetrics and does not include time waiting for x-rays, lab reports or for the operating room.

K001 - Per quarter hour or part thereof \$16.00

46. Detention: While in Attendance With Patient(s) in Ambulance:

K101 - Per quarter hour or part thereof \$32.10

Note: K101 is not applicable to attendance in a vehicle other than an Ambulance.

47. Non Elective Surgical Procedures, Obstetrics or Clinical Procedures Associated with Diagnostic Radiological Examination or Detention While in Attendance With Patient(s) in Ambulance: - when such procedures including fractures or dislocations or major invasive procedures contained in the list of Diagnostic and Therapeutic Procedures or elective procedures which because of intervening emergency procedure(s) commence after 5:00 p.m. and before midnight or on Saturdays, Sundays and Holidays, increase the procedural fee(s) by 30% (E409). When the foregoing procedures commence after midnight and before 7:00 a.m. any night during the week, increase the procedural fee(s) by 50% (E410).

These premiums are not chargeable in addition to the obstetrical fee(s) if labour is induced by medical and/or surgical means by the same physician unless the reason for the induction is fetal distress, diabetes, premature rupture of membrane, severe pre-eclampsia - hypertension or abortion. However a forewater A.R.M. or oxytocin augmentation of labour carried out on a patient in desultory labour does not constitute induction. Major Invasive Procedures are considered to be the following:

G211	G266	G275	G288	G294	G323	G330	G349	G412	R843	R853
G246	G267	G277	G290	G295	G324	G331	G380	G418	R849	R854

G265	G270	G287	G293	G304	G329	G348	G411	R841	R852	

These premiums are not chargeable (during or after a "shift") by emergency or other physicians who have elected or are required to be physically and continuously present in the Emergency Department or environs for an arranged designated period of time.

E409 or E410 may not be claimed for procedures which mainly involve the interpretation of test results and are not applicable to assessments or consultations. Neither are they applicable to procedures listed in the Diagnostic Radiology, Nuclear Medicine or Diagnostic Ultrasound sections of the Schedule.

48. Non Elective Diagnostic Radiology, Laboratory Medicine, Nuclear Medicine or Diagnostic Ultrasound Examinations: - when a physician providing the foregoing services makes a special visit to see a patient in consultation, perform a procedure or conclude that a procedure is not medically indicated, between 5:00 p.m. to midnight or on Saturdays, Sundays and Holidays, a \$26.70 premium (C109) should be claimed in addition to the appropriate consultation fee or procedural fee or by itself if the decision is made not to perform the procedure. For such services rendered between midnight and 7:00 a.m., the premium is \$40.10 (C110).

49. Anaesthetists' Services: - for all cases commencing after 5:00 p.m. and before midnight or on Saturdays, Sundays and Holidays, increase the total anaesthetic fee by 40% (E400C). For all cases commencing after midnight and before 7:00 a.m., any night during the week, increase the total anaesthetic fee by 50% (E401C). For cases requiring a special visit to the hospital, an additional premium of \$22.90 (C998C) during the 40% premium period and \$34.40 (C999C) during the 50% premium period may be charged to the first patient treated on each special visit.

50. Assistants' Services: - for all cases commencing after 5:00 p.m. and before midnight or on Saturdays, Sundays and Holidays, increase the total assistant's fee by 40% (E400B). For cases requiring a special visit to the hospital, an additional premium of \$22.90 (C998B) during the 40% premium period and \$34.40 (C999B) during the 50% premium period may be charged to the first patient treated on each special visit.

PREAMBLE

51. Travelling Time: may be charged directly to patients (since it is a non-insured service) when special visits are made by physicians to see patients outside their normal area of practice. Travelling time may be charged at the same rate as detention.
52. A Locum Tenens
- (a) Must replace the employing physician, who must be absent from the practice.
 - (b) Must replace the employing physician for a continuous period up to a maximum of 12 weeks, with an extension on request for a further 6 weeks.
 - (c) Must be the same specialty as the employing physician.
 - (d) Must be licensed by the College of Physicians and Surgeons of Ontario in a category of licence that allows him or her to practice independently without supervision.

- If these conditions are met, the locum tenens may sign the employing physician's claim cards.
- If any of the above conditions are not met, the physician involved must submit claims to OHIP on his or her own claim cards.

PREAMBLE

APPENDIX C

However, under Code R991 payment will be made at the usual and customary fee paid by insurers in the place where the service was rendered, provided that all of the following conditions are met:

- 1) the insured service is a surgical or other complex medical procedure (excluding consultations and assessments);
- 2) the procedure is generally accepted within Ontario as medical treatment for the insured person's condition;
- 3) the procedure is not performed in Ontario;
- 4) the insured person is referred by a physician in Ontario to the physician outside Ontario who will perform the procedure;
- 5) the insured person departs from Ontario for the express purpose of having the procedure performed;
- 6) prior written approval has been obtained from the Plan.

APPENDIX D

1. Surgery to alleviate significant physical symptoms that are refractory to medical treatment that has been actively undertaken for at least a six month period, or to restore or improve function to any area altered by disease, trauma or congenital deformity normally is a benefit under the Ontario Health Insurance Plan. Surgery solely to alter or restore appearance is not a benefit of OHIP except under the circumstances as listed in the following policy.
2. Emotional, psychological or psychiatric grounds are not considered sufficient reason for OHIP coverage of surgery for alteration of appearance except under exceptional circumstances.
3. On request of the attending physician, exceptions may be made on an independent consideration basis if the proposed surgery is to alter a significant defect in appearance caused by disease, trauma or congenital deformity, and if the surgery is
 - recommended by a Mental Health Facility (as designated by The Mental Hospitals Act) or equivalent, or
 - performed on a patient who is less than 18 years of age and the defect is in the area of the body which normally and usually would not be clothed, or
 - recommended by a Correctional Institution (tattoo removal only), or
 - essential in order to obtain employment as documented by the attending physician and either by a Canada Manpower Employment Centre or by an employer with regard to a specific job, (tattoo removal only).
4. In establishing this policy, it has been recognized that
 - peer acceptance in our society often is influenced disproportionately by the facies,
 - children are especially susceptible to emotional trauma caused by physical appearances.
5. Surgery to revise or remove features of physical appearance which are familial in nature is not a benefit of OHIP.
6. Within the context of this policy, the word "disease" does not include the normal sequelae of aging. Surgery to alter changes in appearances caused by aging is not a benefit of OHIP.
7. Within the context of this policy, the word "trauma" includes trauma due to treatment such as surgery, radiation, etc.
8. The phrase "reasonable period of convalescence" should be considered as two years. Independent consideration will be given to the questionable cases.
9. Authorization from OHIP is not required for all surgery to alter appearance. It is required only for those categories of procedures for which some cases may not be a benefit under OHIP policy.
10. Suitable documentation may be requested by OHIP in some cases before authorization can be considered.
11. The treatment of acute medical or surgical complications resulting from surgery for alteration of appearance and/or function is a benefit of the Plan whether or not the original surgery was covered by OHIP. No authorization is required.
12. Revision of surgery for alteration of appearance, because of undesirable results, is a benefit of the Plan if the original surgery was a benefit and if the revision either is part of a pre-planned staged process or occurs within a reasonable period of convalescence. OHIP authorization is required only if the original surgical procedure, if it had been carried out at the time of the proposed revision, would have required such authorization.

Surface Pathology

1. Trauma Scars

(a) Neck or Face

- Includes ears and non-hair bearing areas of the scalp.
- Repair of all such scars is a benefit of OHIP, except for scars resulting from previous surgery to alter appearance that was not originally a benefit of OHIP.
- Repair procedures will depend upon the lesion but may include excision, revision, dermabrasion, etc.
- Rhytidectomy procedures for cosmetic reasons, however, are not a benefit of OHIP.
- OHIP authorization for repair of such scars is not required but manual assessment of the claims will be necessary to ensure that the most appropriate procedure codes are used.

(b) Scars in other Anatomical Areas

- Repair of scars which interfere with function or which are significantly symptomatic (pain, ulceration, etc.) is a benefit of OHIP.
- Scars with no significant symptoms or functional interference
 - (i) Repair is a benefit if such a repair is part of a pre-planned post-traumatic (including post-surgical) staged process. OHIP notification must be included as part of the planning process.
 - (ii) Other post-traumatic scar revision is not a benefit of OHIP.
- OHIP authorization is required for all scar repair procedures in areas other than the face or neck. Scar revision codes should be used (R026-R029).

2. Keloids

(a) Head or Neck

- The repair of all such keloids is a benefit of OHIP.

APPENDIX D

- Repair procedures may include excision, injection, dermabrasion or planing.
- No OHIP authorization is required.
- (b) Excision of keloids in other areas
 - Not a benefit of OHIP unless significantly symptomatic (pain, ulceration, etc.) or there is functional impairment.
 - OHIP authorization is required.
- 3. Tattoos
 - (a) Face or Neck
 - Excision or destruction of all such tattoos is a benefit of OHIP.
 - Authorization is not required but adjudication of repair procedures will be identical to that for scars in these areas.
 - (b) Other Anatomical Areas
 - Excision or destruction of concentration camp or P.O.W. tattoos is a benefit of OHIP. Otherwise, not a benefit of OHIP except as described in Para D-3 (Page xx).
- 4. Benign lesions such as naevi, keratoses, spider naevi, papillomata, neurofibromata
 - (a) Face or Neck
 - Excision or destruction of these lesions is a benefit of OHIP.
 - Authorization is not required.
 - (b) Other Anatomical Areas
 - Normally not a benefit of OHIP if removed for alteration of appearance only, rather than for medical necessity or because of clinical suspicion or evidence of malignancy.
 - Removal of very large lesions that would be considered disfiguring in patients of any age may be a benefit of OHIP.
 - Authorization is required.
- 5. Hair Loss
 - (a) Head or Neck
 - (i) Patients less than 18 years of age
 - Repair is a benefit for non-hereditary etiologies.
 - Authorization is not required. However, if it is possible that a planned staged procedure will extend beyond the age limit, pre-authorization should be obtained, since it will be necessary after the 18th birthday.
 - (ii) Post-traumatic
 - Repair to the area of traumatic hair loss is a benefit of OHIP only if carried out within a reasonable period of convalescence. (See Para. 7, page xx).
 - OHIP authorization is required.
 - Usual repair procedures may include skin shifts of flaps, skin grafts, or hair plugs.
 - (iii) Other Etiology
 - Not a benefit of OHIP.
 - (b) Other Anatomical Areas
 - Not a benefit of OHIP.
- 6. Epilation of Hair
 - (a) Face
 - This procedure is a benefit of OHIP only for those patients with documented endocrine abnormality or drug-induced hirsutism.
 - (b) OHIP authorization is required.
 - (c) Other Anatomical Areas - Not a benefit of OHIP.
- 7. Redundant Skin
 - (a) Excision of redundant skin for elimination of wrinkles, etc., is not a benefit of OHIP.
 - (b) Blepharoplasty is not a benefit of OHIP unless there is documented evidence of medical necessity from the appropriate physician such as visual field defect caused by the redundant eyelid skin. OHIP authorization is required. (Include documentation of visual fields).

Sub-surface Pathology

- 1. Congenital deformities
 - (a) Head or Neck
 - Repair is a benefit of OHIP except for:
 - surgery to revise or remove features which are familial in nature or do not interfere with function
 - surgery to correct "outstanding ears" in patients who are eighteen years of age or over.
 - OHIP authorization is required.
 - (b) Other Anatomical Areas
 - Normally not a benefit of OHIP if surgery is for alteration of appearance only.
- 2. Post-Traumatic Deformities
 - Reconstructive procedures are a benefit at the acute stage; within two years, or if part of a pre-planned staged process of repair.
 - Repair of procedures may include bone revision, tissue shifts and grafts, prosthesis implantation, etc.
 - OHIP authorization is required for repairs beyond the acute stage.

APPENDIX D

3. Deformities resulting from local disease (such as loss or distortion of bone, muscle, connective tissue, adipose tissue, etc.)
 - (a) Head or Neck
 - Reconstructive procedure for significant abnormalities are a benefit at the acute stage; during a chronic disease process; within a reasonable period of convalescence (see Para. 7, Page xi) or if part of a planned staged process of repair initiated during one of these periods.
 - Repair procedures normally could include tissue grafts, flaps or shifts, bone revision, prosthesis insertion, etc.
 - Face lifts, modified face lifts, brow lifts, etc., are not a benefit of the Plan if skin only is involved in the procedure. However, a repair such as ptosis repair or face lift with underlying slings is a benefit of OHIP if the procedure is to correct significant deformity following stroke, cancer, VIIth nerve palsy, etc.
 - OHIP authorization is required for repair of deformities resulting from local disease.
 - (b) Other Anatomical Areas
 - Not a benefit of OHIP if the correction is for appearance only.
 - Correction of severe deformity resulting from polio or neurological disease will be considered for payment - OHIP authorization is required.
4. Breast Surgery
 - (a) Augmentation Mammoplasty
 - This procedure is a benefit of OHIP unilaterally or bilaterally for a female patient with breast aplasia.
 - It may be an OHIP benefit unilaterally for a female patient with a severely hypoplastic breast. Additional documentation may be required.
 - Unilateral augmentation mammoplasty may be a benefit of the Plan if there is gross disproportion present or in association with an approved unilateral reduction mammoplasty or postmastectomy reconstruction of the contralateral breast.
 - The correct code for the repair procedure is R112
 - OHIP authorization is required.
 - (b) Post-Mastectomy Reconstruction
 - Unilateral or bilateral breast reconstruction is a benefit of OHIP when the procedure is subsequent to total or partial mastectomy (including wedge resection) or prophylactic mastectomy as listed in the Schedule of Benefits.
 - Authorization is not required.
 - (c) Reduction Mammoplasty
 - Reduction Mammoplasty may be approved where there is significant associated symptomatology. Ptosis and/or size are not sufficient grounds for OHIP coverage of reduction mammoplasty.
 - Unilateral Reduction Mammoplasty may be a benefit of the Plan if there is gross disproportion present or in association with approved unilateral augmentation mammoplasty, or post mastectomy reconstruction of the contralateral breast. Additional documentation may be required.
 - OHIP authorization is required.
 - (d) Mastectomy
 - This procedure is a benefit of the Plan.
 - Authorization is not required.
 - (e) Accessory Breasts or accessory nipples
 - Excision of such accessory tissue is a benefit of the Plan.
 - The appropriate code should be used from the Schedule listings under Skin and Subcutaneous tissue.
 - Authorization is not required.
5. Septorhinoplasty
 - This is a benefit of OHIP when the rhinoplasty component is necessary to obtain an adequate airway or following trauma within 2 years or part of a pre-planned staged plastic repair. (See Para 7, Page xi).
 - In cases where a septoplasty is necessary to improve function and a rhinoplasty is done to improve the cosmetic effect, OHIP will pay the part of the operation that was medically necessary (e.g. if a septorhinoplasty is performed and a septoplasty was necessary to improve the airway, OHIP will pay M012 and the surgeon is entitled to claim the difference from the patient).
 - OHIP authorization is required. A description of the external deformity should be provided.
6. Excision of excess fatty tissue and/or skin is not a benefit of the Plan except for panniculectomy where there is significant symptomatology.
 - OHIP authorization is required.
7. Sex-Reassignment Surgery
 - (1) Sex-reassignment surgical procedures are a benefit of OHIP only if they are performed on patients who have completed the Gender Identity Clinic program operated by the Clarke Institute of Psychiatry in Toronto. Moreover, claims are accepted for payment only for those patients for whom the Clinic has recommended that surgery take place. This surgery need not take place in Toronto or even in Ontario. Surgery recommended by the Clinic which takes place outside the Province of Ontario may be approved for payment at rates in accordance with the current OHIP Schedule of Benefits.
 - (2) Within the foregoing guidelines, reconstruction of genitalia and mastectomy are benefits of the Plan. However, since the hormonal treatments associated with sex-reassignment themselves give rise to breast enlargement, augmentation mammoplasty or breast reconstruction in a male to female conversion is not a benefit of OHIP, in keeping with the previously outlined policy regarding breast surgery in females. OHIP authorization is required.

Team Management in a Rehabilitation Unit (active in-patient rehabilitation management from the initiation of rehabilitation care).

Active in-patient rehabilitation management from the initiation of rehabilitation care as it applies to fee codes H312, H317 and H319 means when this service is rendered by one physiatrist even if part of the service is rendered in an active treatment hospital and part is rendered in a rehabilitation unit, the weekly and monthly limitations under the following fee codes apply to the total rehabilitation care rendered. In other words, it is not possible to charge the maximum fees allowed under C312, C317 and C319 and then start billing de novo under H312, H317 and H319 under the above circumstances.

H312	up to twelve weeksper visit	13.90
H317	from thirteenth to twenty-sixth week (not to exceed \$41.70 per week)per visit	13.90

H313	per half hour or major part thereof (includes report)	35.10
------	---	-------

Physiatric Management: applies to physiatrists regulating the day to day management of patients when medical necessity requires prescription development, advice and supervision. It may be billed on the days when rehabilitation services are provided to patients seen previously by the physiatrist for consultation or assessment. The fee is not meant as an administrative fee for supervising a department of rehabilitation nor is it to be charged on the same day as claims are made for any other services which are provided by the physiatrist to the same patient(s). This fee applies only to those patients who require and receive frequent attention by the physician during the course of rehabilitation with regard to rehabilitative services of physical or occupational therapy, speech therapy and discharge planning

NUCLEAR MEDICINE - IN VIVO

Column T - is the technical benefit for the production of records, radiopharmaceutical agents, apparatus, premises, technical services, administration and secretarial services.

Column P₁ - is the professional benefit for supervision of the procedure, appropriate patient interview and/or examination, correlation of related data, interpretation of results, and provision of a written report. The physician need not be continuously present in the nuclear medicine department or private facility while the procedures are being carried out but must be physically present frequently enough to carry out the appropriate patient interview and/or examination and approve, modify or intervene in the procedures as required.

Column P₂ - is the professional benefit for interpretation of results and provision of a written report. If the physician does not meet the criteria for P₁ or has claimed any visit in conjunction with that Nuclear Medicine procedure, the lesser professional fee (P₂) will be claimed.

- Notes:
1. If quantification or data manipulation is carried out in addition to visual inspection of imaging studies, add 30% to the appropriate professional benefit except when SPECT is claimed. For claim purposes, use prefix "Y". Such activity must add significant diagnostic information not available by inspection alone and does not include simple image enhancement techniques such as smoothing, background subtraction, etc. Recording of images on videotape for replay and production of images on the video display of a computer do not in themselves justify the additional benefit. The claims for cardiac wall motion studies and calculation of ventricular ejection fraction (J811 and J813) already include an allowance for data manipulation as a general rule and no additional benefit may be claimed. The additional computer benefit may be claimed only when additional cardiac quantifications are performed i.e. stroke volume ratio and volume response curves and/or phase analysis.
 2. The total benefit is arrived at by adding T plus P₁ (first fee code listed e.g., J801) or by adding T plus P₂ (second fee code listed e.g., J801).
 3. Examination of Brain, Lung, Liver or Spleen is limited to one view, the benefit (T and P₁ or P₂) is to be reduced by 50%.
 4. Repeat studies on the same day may be claimed only after exercise or drug intervention.
 5. The phrase "nuclear medicine specialist" should be interpreted as "nuclear medicine physician" since not all physicians practising nuclear medicine are certified as specialists in this discipline by the Royal College of Physicians and Surgeons.
 6. When tomographic examination (SPECT) is billed, the 30% add on referred to in para. 1 may not be charged.

If claimed as inpatient service, follow above directions.

If claimed as outpatient service, allow to all listed physicians.

Payment for outpatient services must be made to the registered Department of Radiology, in the case of a hospital, even though there is no technical component listed.

RADIOISOTOPES (non-sealed sources)

The following benefits include treatment planning, dosage calculation and preparation of materials. Appropriate visit and procedural benefits (e.g. paracentesis) may be claimed in addition. Thyroid benefits (X326, X327, X336) include administration(s) within any three month period.

DIAGNOSTIC RADIOLOGY

Column T - The benefit for radiological examination including the production of radiographs, supplying of contrast media, apparatus, premises, technical services, administration and collection costs.

Column P - The benefit for consultation between radiologist and referring physician, fluoroscopy, interpretation of radiographs and fluoroscopic findings and supervision of x-ray services by a radiologist.

Hospital out-patient technical fees will be paid at 93.23% of the technical fee listed in this Schedule of Benefits.

Private offices and hospital out-patient departments will bill Column T plus P.

Radiologists should use Column P as a guideline for negotiating remuneration with hospitals.

Benefits for clinical procedures related to x-ray examinations are listed in the following section, or under Diagnostic and Therapeutic or Surgical Procedures. "Clinical Procedures", in this context, are those by which contrast media are introduced, except oral or rectal administration for study of the alimentary tract, and intravenous injections, which are an integral part of the study, performed by the physician collecting the benefit for the procedure.

If less than minimum number of views are performed, reduce listed fees by 25%.

If the examinations which are requested by the referring physician yield abnormal findings or if they would yield information which in the opinion of the radiologist would be insufficient, governed by the needs of the patient and the requirements of the referring physician, the radiologist may add further views and charge for them (if listed).

Fee Schedule Interpretations

1. When a radiologist is asked to x-ray one extremity only, no additional charge should be made for comparison x-rays initiated by the radiologist.

2. Nephrotomography is covered by the listings for intravenous pyelogram and planigram.

3. A stereo pair is to be counted as two views.

4. No extra claim should be charged for rapid sequence I.V.P.

5. No additional claim is warranted for the use of the image intensifier in diagnostic radiology.

6. Fluoroscopy claims should not be submitted for any examination performed by the radiologist where fluoroscopy is generally regarded as an integral part of the examinations e.g. examinations of the G.I. tract, urinary tract, special procedures.

7. "Colon-air contrast" may be claimed when performed according to generally accepted criteria. The colon should be scrupulously prepared. Five to eight full size views of the abdomen should be obtained after fluoroscopically controlled introduction of air and barium.

8. "Oesophagus, stomach and duodenum, double contrast" presupposes the introduction of gas, the use of antifoam agent and a suitable barium mixture.

9. Abdomen and chest studies should not be routinely done and claimed in gastrointestinal examinations.

10. Three or more views of the chest should not be done routinely and claimed when a chest examination is requested.

11. Chest studies should not be routinely done and claimed in mammography cases.

12. Nasal bones or accessory nasal sinuses should not be routinely claimed in skull examination requests.

13. Abdomen and/or pelvis should not be routinely claimed in lumbar spine examination requests.

14. A survey film of the abdomen is a single view. The ordering of additional films should be left to the discretion of the radiologist who should have the power to determine what examination is adequate for a specific patient. Obviously, if progress of a long tube is being followed, a survey film is sufficient. If, however, an intestinal obstruction is being followed, a single film is usually inadequate.

15. Conventional films of the spine should not be routinely done and claimed for before myelography. The necessity of having plain film studies of the spine prior to interpreting the myelographic studies is obvious. It is not essential, however, that these be done at the institution where the myelogram was done. If they have been done at an outside office, then it is a matter for the radiologist and the referring physician to have the films available. If they cannot be made available to the radiologist, it is an acceptable practice for him to do the required examination of these areas and to claim for them so that they may be available for interpretation along with the myelographic study.

16. Pharynx and oesophagus (cine or videotape) - X106 should not be claimed routinely with X108 and X109 but only when specifically indicated.

17. Lumbar or lumbosacral spine (X028) does not include the entire sacrum. An examination of the sacrum may be carried out and claimed for only when specifically indicated.

18. X006 and X007 are not both to be routinely claimed on the same patient but only when specifically indicated.

19. A maximum of two computed tomography examinations per patient per day may be claimed.

20. Complex head CT Scans are meant to be multi planar (multi directional) head CT Scans - to include one or more of the following areas: pituitary fossa, posterior fossa, internal auditory meati, orbits and related structures, the temporal bone and its contents and the temporomandibular joints. X400, X401 and X188 are not to be billed in addition to those fees for complex head studies.

21. All benefits listed apply to unilateral examinations unless otherwise specified.

22. Claims for X-ray services, when referred by an Osteopath, Chiropractor or Chiropractor to a private X-ray facility are not benefits of OHIP.

23. Claims for X-ray services, when referred by and Osteopath or Chiropractor to a hospital out-patient department are benefits.

CLINICAL PROCEDURES, ASSOCIATED WITH
DIAGNOSTIC RADIOLOGICAL EXAMINATIONS

- Note: 1. These procedural fees are intended to cover compensation for the professional service of placing an instrument and introducing contrast media if done (except oral or rectal administration for study of the alimentary tract). Injection of materials to enhance the effect of contrast media is included in the procedure benefits.
2. Radiological charges are additional: see similar entries under DIAGNOSTIC RADIOLOGY.
3. Where similar procedures are done for diagnostic physiological studies of non-radiological nature, e.g. cardiac catheterization or intra-arterial infusion, they are listed separately under Surgery or Diagnostic and Therapeutic Procedures. See Index.

DIAGNOSTIC ULTRASOUND

T and P Columns should be interpreted in the spirit of the first two paragraphs on page 32, but without limiting the performance of these tests to suitably trained physicians of any one specialty. Furthermore, the physician must be physically available to approve, modify or intervene in the examination as required or the examination must be completely recorded by video/computer methods and reviewed in its entirety by the physician. No fee (either professional or technical) may be charged if the physician's only involvement is the interpretation of hard copy (films).

Notes: A-Mode-implies a one-dimensional ultrasonic measurement procedure.

M-Mode-implies a one-dimensional ultrasonic measurement procedure with movement of the trace to record amplitude and velocity of moving echo-producing structures.

Scan B-Mode-implies a two-dimensional ultrasonic scanning procedure with a two-dimensional display. All ultrasound examinations include a permanent record and interpretative report.

DIAGNOSTIC AND THERAPEUTIC PROCEDURES

- Code With a few exceptions specifically indicated below, the listed procedural benefits are for the procedure(s) alone. Consultations or visit benefits when such services are rendered, may be claimed in addition to the procedural benefits.
- When a procedure(s) is the sole reason for a visit, add \$3.90 basic fee per visit for those procedures marked (+) regardless of the number of procedures carried out during that visit. However, if the patient visit is to a physician's office or a diagnostic facility controlled directly or indirectly by a physician who has examined (or is about to examine the patient) and referred the patient to such a diagnostic facility, no basic fee should be claimed under these circumstances.

Note: G700 is not payable to a hospital department.
Fee Schedule Interpretations

1. Urinalysis and other laboratory tests listed on page 59, apply when these services are performed by a physician in his office with or without an associated consultation or visit. The same tests listed in the Laboratory Medicine Section of the Schedule apply to licensed laboratories.

2. Some fees for Diagnostic and Therapeutic Procedures have the technical and professional components listed separately. The technical component includes the salaries of support staff, equipment depreciation or lease costs, supplies and costs associated with the preparation of a written report. The professional component includes the clinical supervision of the diagnostic facility, interpretation of the test results and a written report. When only one fee is listed for a service, it represents the professional component only.

3. The Preamble applicable to Surgical Procedures (pages 67, 68) also applies, where appropriate, to Diagnostic and Therapeutic Procedures.

ALLERGY

Note: If a patient presents for an allergy injection and has an acute infectious condition, albeit of the respiratory system, or some other unrelated condition which would have otherwise required a separate office visit, the physician is entitled to charge the appropriate assessment fee as well as the injection fee. If a patient requires a brief assessment of his allergic condition as well as the allergy injection, the physician should bill the injection and basic fees.

CRITICAL CARE - Cont'd.				
Critical Care - (Intensive Care Unit) - includes provision in an Intensive Care Area of all aspects of care of a critically ill patient excluding ventilatory support and includes initial consultation and assessment, emergency resuscitation, intravenous lines, cut downs, pressure infusion set and pharmacological agents, insertion of arterial, C.V.P. or urinary catheters and nasogastric tubes, securing and interpretation of laboratory tests, oximetry, transcutaneous blood gases and intracranial pressure monitoring interpretation and assessment when indicated (excluding insertion of ICP measuring device). These fees are not chargeable for services rendered to stabilized patients in I.C.U.'s.				
Physician-in-charge is the physician(s) daily providing the above.				
G400	1st day		162.00	
G401	2nd to 10th days (inclusive) per diem		81.00	
G402	11th day onwards per diem		40.50	
Ventilatory Support (Intensive Care Unit) - includes provision of ventilatory care including initial consultation and assessment of the patient, endotracheal intubation with positive pressure ventilation including tracheal toilet, use of artificial ventilator and all necessary measures for its supervision, obtaining and interpretation of blood gases, oximetry, transcutaneous blood gas application and assessment.				
Physician-in-charge is the physician(s) daily providing the above.				
G405	1st day		141.70	
G406	2nd to 10th day (inclusive) per diem		70.90	
G407	11th day onwards per diem		47.20	
Comprehensive Care (Intensive Care Unit) - these fees apply to Intensive Care physicians who provide complete care (both Critical Care and Ventilatory Support as defined above) to Intensive Care Area patients. These fees include the initial consultation and assessment and subsequent examinations of the patient, endotracheal intubation, tracheal toilet, artificial ventilation and all necessary measures for respiratory support, emergency resuscitation, insertion of intravenous lines, cut downs, arterial and/or venous catheters, pressure infusion sets and pharmacological agents, insertion of CVP lines, defibrillation, cardioversion and usual resuscitative measures, insertion of urinary catheters and nasogastric tubes, securing and interpretation of blood gases and laboratory tests, oximetry, transcutaneous blood gases, intracranial pressure monitoring interpretation and assessment when indicated (excluding insertion of ICP measuring device). These fees are not chargeable for services rendered to stabilized patients in I.C.U.'s.				
Physician-in-charge is the physician(s) daily providing the above.				
G557	1st day		236.80	
G558	2nd to 10th days (inclusive) per diem		117.65	
G559	11th day onwards per diem		58.80	
If Ventilatory Support only is provided, for example, by the anaesthetist(s), claims should then be made under Ventilatory Support. Comprehensive Care fees do not apply. Other physicians should then charge Critical Care fees or the appropriate consultation, visit or procedures.				
The fees under Physician-in-Charge apply per patient treated, i.e., while the physician-in-charge may change during the course of treatment, the daily fee formula as set out should be charged by the physicians involved as if there was only one physician-in-charge during the treatment program; in this sense, the daily fees are team fees.				
If patient has been discharged from Unit more than 48 hours and is re-admitted to Unit, 1st day rate applies again on day of re-admission.				
The appropriate consultation, procedure and visit fees shall apply after stopping Critical Care, Ventilatory Support or Comprehensive Care.				
Other physicians apart from those providing Critical Care or Comprehensive Care may charge the appropriate consultation, visit and procedure fees not listed in the fee schedule for Critical Care.				
These claims will be adjudicated by the Plan on an Independent Consideration basis.

OBSTETRICS

1. Obstetrical care is divided into its components. A prenatal major assessment when performed may be claimed; it shall comprise a full history, an inquiry into, and an examination of all parts or systems (and may include a detailed examination of one or more parts or systems), an appropriate record and advice to the patient. All other prenatal visits shall comprise the necessary history and inquiry, examination, appropriate record, pregnancy related counselling and advice to the patient. Normal (uncomplicated) prenatal care includes a prenatal general assessment visit, then monthly visits to 32 weeks, followed by visits every 2nd week to 36 weeks, then weekly visits until delivery. However, complicated pregnancies may require additional visits. Labour - delivery and postpartum care are listed separately.

2. If an uncomplicated obstetrical patient is transferred from one physician to another physician for obstetrical care, the appropriate assessment benefit may be charged by the second physician, followed by prenatal visits. This statement does not apply to physicians substituting for each other or when the second physician sees the patient for the first time in labour. If the obstetrical patient is referred to a consultant for obstetrical care because of the complexity, obscurity or seriousness of the case, the consultant may claim a consultation in addition to the prenatal visits.

3. Illnesses resulting from or associated with pregnancy or false labour requiring added home or hospital visits, shall be claimed on a per visit basis.

4. When a pregnant patient visits her physician for a condition unrelated to her pregnancy and apart from her routine scheduled prenatal visits, the physician may charge the appropriate visit benefit.

5. The listings under the heading Referred Services may be claimed by the consultant physician in addition to the appropriate consultation or visit benefit. They may not be claimed by physicians providing obstetrical care to their own patients.

6. If a consultant is requested by another physician to perform a surgical induction of labour, or emergency removal of a Shirodkar suture (except at delivery) assuming someone else has inserted the suture, the consultant should claim consultation benefit for this (these) service(s).

7. Medical induction or stimulation of labour may be claimed once per pregnancy by any one physician and only when carried out for a recognized obstetrical complication(s) and does not qualify for detention benefits.

8. The listings for "Attendance at labour and attendance at delivery" and for "Attendance at delivery" may not be claimed by any physician when a patient is transferred to a second physician for normal obstetrical care.

9. Ordinary immediate care of the newborn is included in the labour-delivery fee and when the service is rendered by the anaesthetist, it is included in the anaesthetic benefit. A life threatening emergency situation requiring active resuscitation of the newborn provided by any physician may be claimed under codes G521, G522, G523. When indicated, endotracheal intubation and tracheo-bronchial toilet should be billed under G211.

10. When a physician provides newborn care and also performs a circumcision on the same newborn or infant, both services may be claimed.

11. When an obstetrician routinely transfers all newborns to another physician, the latter should not claim consultation benefit for these "transferrals". If the baby is well, the physician should charge the newborn care in hospital benefit plus for attendance at maternal delivery if this service is given. If the baby is sick, the physician may claim a general assessment and for attendance at maternal delivery (if this service is given) plus daily visits for as long as his services are required. If an obstetrician normally cares for newborns himself or transfers the care of newborns to a family physician but refers a newborn to a paediatrician because of the complexity, obscurity or seriousness of the case, the latter may claim for this service according to the following guidelines:

a) If attendance at maternal delivery is provided, code H267 may be claimed and if a general assessment of the baby is carried out, code C263 may be claimed as well. However, a postnatal consultation of the baby, code C265 may not be claimed in addition to code H267.

b) If a paediatrician has not attended delivery, a postnatal consultation may be claimed (if this service is rendered) even though a prenatal consultation may already have been claimed.

12. When a physician provides prenatal visits, attends labour, assists or administers the anaesthetic at Caesarean section and visits the patient post-operatively, he is entitled to claim for prenatal visits, attendance at labour, assistant's or anaesthetist's benefits for Caesarean section and post-operative supportive care while the patient is in hospital.

13. Physicians may claim for assisted breech delivery (P020) when the service includes spontaneous delivery to the umbilicus, with extraction of the shoulders, arms and aftercoming head.

14. The Preamble applicable to Surgical Procedures (pages 67, 68) also applies to obstetrics where appropriate.

15. The premiums applicable to Obstetrics are as follows: When deliveries and other obstetrical procedures done in continuity with the delivery occur after 5:00 p.m. and before midnight or on Saturdays, Sundays and Holidays, increase the procedural fee(s) by 30% (E409). When time of delivery occurs after midnight and before 7:00 a.m. any night during the week, increase the procedural fee(s) by 50% (E410). These premiums are not chargeable in addition to the obstetrical procedural fee(s) if labour is induced by medical and/or surgical means by the same physician unless the reason for the induction is fetal distress, diabetes, premature rupture of membrane, severe pre-eclampsia-hypertension or abruptio. However a forewater A.R.M. or oxytocin augmentation of labour carried out on a patient in desultory labour does not constitute induction.

SURGICAL PROCEDURES

Preamble - FOR DEFINITION OF THE ROLE OF THE REFERRING PHYSICIAN, SEE REFERRING PHYSICIAN SERVICES ON PAGE ix.

FOR DEFINITION OF THE ROLES OF THE ANAESTHETIST, SEE ANAESTHETIST SERVICES ON PAGES x and xi.

- (1) The surgical benefit (except for those procedures marked I.O.P., Complete Care and Fractures and Dislocations requiring no reduction) includes hospital visits rendered by the surgeon two days prior to surgery, the operative procedure, the post-operative care usually associated with the procedure(s) rendered by the surgeon while the patient is in hospital, and one office visit for follow up examination if necessary. If the surgeon is required to perform a procedure(s) not usually associated with the original surgical procedure, he may claim for these on a fee for service basis. If special visits to hospital are required at any time post-operatively, the surgeon may claim the special visit premiums even if the basic hospital visit fees are not chargeable (under these circumstances the hospital visits should be claimed on an NVC (no charge) basis). The surgical benefit as noted above does not include the major pre-operative visit i.e. the consultation or assessment fee chargeable when the decision to operate is made and the operation is scheduled, regardless of the time interval between the major pre-operative visit and surgery. The hospital or day-care admission assessment (consultation, repeat consultation, general or specific assessment or re-assessment) is not a benefit to the surgeon unless it happens to be the major pre-operative visit as defined above. Hospital visits (minor assessments) may be claimed for visits rendered more than two days prior to surgery. Other visits (excluding admission assessments) prior to admission may be claimed for in addition to the surgical fee. For patients remaining in hospital because of complications, hospital visit fees may be claimed in addition to the surgical or procedural fee after eight weeks of hospitalization in the case of fractures and dislocations and after two weeks for other procedures. Because the number of hospital visits is limited to three per week after the fifth week of hospitalization and six per month after the thirteenth week of hospitalization, the starting point for calculating the number of hospital visits is based on the date of admission if the operating surgeon has admitted the patient or the date of referral if the patient has been referred to the operating surgeon while in hospital. The surgical benefit includes the generally accepted surgical components of the procedure. The listed benefit of a procedure normally also includes any necessary repair of iatrogenic damage occurring during the course of the surgery.
- (2) When a physician makes a special trip to perform a non-elective surgical procedure during the daytime (Monday to Friday), he should claim the appropriate special visit, a consultation if the case is referred (except for fractures or dislocations requiring no reduction) or the appropriate assessment if the case is not referred plus the procedural benefit(s). When the special visit is to deal with fractures or dislocations requiring no reduction, the minor or partial assessment fee is the appropriate benefit to be added to the special visit and fracture or dislocation fees. If the non-elective procedure is carried out at night (after 5:00 p.m. and before 7:00 a.m.), or Saturdays, Sundays and Holidays, the physician may claim the special visit applicable to the consultation or assessment, and the surgical premium (E409 or E410 - see paragraph 47 of the Preamble).
- (3) When more than one procedure is carried out by a surgeon under the same anaesthesia or within 14 days during the same hospitalization for the same condition, the full benefit applies to the major procedure and 85% of the listed benefit(s) applies to the other procedure(s) performed unless otherwise stated in the Preamble(s) or Schedule. The above statement applies to staged or bilateral procedures but does not apply when a normal appendix or simple ovarian or para-ovarian cyst is removed incidentally during an operation, for which no claim should be made.
- (4) When a subsequent operation becomes necessary for the same condition because of a complication or for a new condition, the full benefit should apply for each procedure.
- (5) When a subsequent non-elective procedure is done for a new condition by the same surgeon, the full benefit will apply to each procedure. When a subsequent elective procedure is done for a different condition within 14 days during the same hospitalization by the same surgeon, the benefit for the lesser procedure shall be reduced by 15%.
- (6) When different operative procedures are done by two different surgeons under the same anaesthesia for different conditions, the benefit will be 100% of the listed benefit for each condition. Under these circumstances, the basic assistants' benefit should not be charged by either operating surgeon; however time units may be claimed.
- (7) As a general rule, when elective bilateral procedures are performed by two surgeons at the same time, one surgeon should charge for the surgical procedures and the other surgeon should claim the assistant's benefit.
- (8) Where two surgeons are working together in surgery in which neither a team fee or other method of billing is set out in the benefit schedule, the surgeon should identify himself as the operating surgeon and claim accordingly; the surgeon who is assisting him should identify himself as such and claim the assistant's benefit. Where the second or assistant surgeon is brought into the case on a consultation basis, he may, when indicated, claim a consultation as well but should be prepared to justify it on an I.C. basis. If the nature or complexity of a procedure requires more than one operating surgeon each providing a separate service in

SURGICAL PROCEDURES

his own specialized field e.g. one surgeon carries out the ablative part and another surgeon the reconstructive part of the procedure, then each surgeon should claim the listed benefit for his services. This statement applies when the additional procedure(s) are not the usual components of the main procedure. If one surgeon in addition to performing a specialized portion of a procedure, acts as an assistant during the remainder of the procedure, he may also claim time units for assisting.

- (9) Unless otherwise stated, the listed benefits are for unilateral procedures only.
 - (10) When a procedure is performed, a procedural benefit, if listed, should be claimed. Substitution of consultation and/or visit benefits for procedural benefits (except as in paragraph 11), is not in keeping with the intent of the benefit schedule.
 - (11) When a surgical benefit (non I.O.P., Complete Care, Fracture or Dislocation) is less than the consultation benefit and the case is referred, the physician may claim the consultation benefit instead of the surgical benefit. However, to avoid the consultation being counted as such under the OHIP limitation rules on the number of consultations allowed per year, the physician should claim the consultation fee under the surgical procedure nomenclature or code. Since the consultation is replacing a procedural benefit which includes the pre- and post-operative and surgical care, no additional claims beyond the consultation should be made.
 - (12) If a physician performs a minor surgical procedure and during the same visit assesses and treats the patient for another completely unrelated and significant problem involving another body system, the physician should claim for the procedure as well as the appropriate assessment.
 - (13) Where a procedure is specified as "Independent Operative Procedure (I.O.P.)", the procedural benefit should be claimed in full along with the appropriate consultation or visit when both services are actually rendered. However, when an I.O.P. procedure is done in conjunction with a non-I.O.P. procedure, there should be no claim for the consultation, pre- and post-operative care related to the I.O.P. procedure. The listed I.O.P. benefit should be claimed in these circumstances along with the non-I.O.P. benefits plus the related major pre-operative visit (see paragraph (1) of Surgical Preamble). When multiple or bilateral I.O.P. procedures are performed at the same time by the same physician, the listed procedural benefits should be claimed in full but the pre- and post-operative benefits should be claimed as if only one procedure had been performed. When a patient is examined in a physician's office and this leads to an elective Independent Operative Procedure (I.O.P.) being performed for the same problem or diagnosis by the same physician in the Emergency or Outpatient Department on a non-admission basis, the physician should claim a consultation or visit for the examination in the additional assessment benefit at the time of the elective I.O.P. should only be claimed when an additional assessment is performed.
 - (14) When procedures are specifically listed under Surgical Procedures, surgeons should use these listings rather than applying one of the plastic surgery listed fees under Operations on Skin and Subcutaneous Tissue.
 - (15) For excision of tumours not specifically listed in this Schedule, claims should be made on an I.C. basis (code R993). Independent consideration also will be given (under code R990) to claims for other unusual but generally accepted surgical procedures which are not listed specifically in the Schedule (excluding non-major variations of listed procedures). In submitting claims, physicians should relate the service rendered to comparable listed procedures in terms of scope and difficulty (see Preamble, Part B, paragraph 32).
 - (16) Cosmetic or Aesthetic Surgery: means a service to enhance appearance without being medically necessary such as (a) surgery for correction of facial wrinkles; (b) surgery for eyelid wrinkles (symmetrical and without a functional problem); (c) rhinoplasty for appearances only; and (d) augmentation mammoplasty for symmetrical deficiency without physiological abnormality. These services are not benefits of OHIP. (See Preamble, Appendix A).
 - (17) Reconstructive Surgery: is surgery to improve appearance and/or function to any area altered by disease, trauma or congenital deformity. Although surgery solely to restore appearance may be included in this definition under certain limited conditions, emotional, psychological or psychiatric grounds normally are not considered sufficient additional reason for OHIP coverage of such surgery. Appendix D of the Preamble to this Schedule describes the conditions under which surgery for alteration of appearance, only, may be a benefit of the Plan.
- Physicians should submit requests to their District OHIP office for authorization of any proposed surgery which may fall outside of OHIP coverage. (See Appendix D).
- (18) Procedural benefits (non I.O.P.) include the removal of sutures when both services are rendered by the same physician unless the removal of sutures is done on the second or subsequent office visit for follow up examination. When a physician is entitled to claim for removal of sutures i.e. as outlined in the previous sentence or is a physician other than the operating surgeon or following an I.O.P. procedure, an office visit may be claimed.

SURGICAL PROCEDURES

- (19) Additional claims for biopsies performed when a surgeon is operating in the abdominal or thoracic cavity should be given independent consideration.
- (20) When a listed procedure is performed and no anaesthetic is required, the procedure should be claimed under the "local anaesthetic" listing.
- (21) When a physician administers an anaesthetic and/or other medication prior to, during a procedure(s) or immediately after a procedure(s) which he/she performs on the same patient, he/she should claim for the procedure(s) only. However, when a physician administers a pudendal, femoral, intercostal, sciatic, iliofemoral, iliohypogastric, ulnar, median or radial block in addition to performing a procedure, he may claim \$11.80 (G224) in addition to the procedure.
- (22) If claims are being submitted in coded form, the surgeon should add the suffix A to the listed procedural code, the surgical assistant should add the suffix B to the listed procedural code and the anaesthetist should add the suffix C to the listed procedural code.

Plastic Surgery Procedures:

The setting of benefits covering the various procedures of plastic surgery is a very difficult problem. Since many procedures are divided into stages which have to be considered in assessing a fee, it is felt that all such plastic surgical procedures should be classed by the responsible specialist as very minor, minor, intermediate, major, or extensive major. Benefits should be claimed according to procedures set forth in the tariff, except in cases which are difficult to define, in which case "I.C." should be the basis of the claim. The minimum benefit for each would be as follows:

R150	Very Minor		73.30	4
R151	Minor	3	111.50	4
R152	Intermediate	4	206.30	4
R153	Major	4	308.65	5
R154	Extensive Major	4	452.30	6

- Notes: (1) Descriptive details of procedure (e.g.: operative report) should be submitted with claims for codes R150-R154 for professional assessment.
 (2) Taking of skin by a surgeon for grafting by an Oral Surgeon claim as R150.

SURGICAL PROCEDURES

OPERATIONS ON THE MUSCULOSKELETAL SYSTEM

Preamble:

- (1) Connective splints must be "connective" to qualify for a benefit as such. The connective splint listings are not applicable to simple immobilization such as with a Jones bandage or metal finger splint following soft tissue injury.
- (2) The removal of a wire or pin or other device when used for traction or external fixation (except for rigid external fixators) in the treatment of a fracture or other orthopaedic procedure is to be included in the procedural fee. Removal of devices used for internal fixation more than 30 days after insertion may be charged for in addition to the procedural benefit.
- (3) The benefit for total hip replacement also includes denervation of the hip joint and adductor tenotomy.
- (4) The benefit for obtaining a bone graft is not to be claimed in cases of pseudarthrosis repair, fusions or for listings in which bone grafting is included.
- (5) For the supervision of limb fitting and 6 months post-operative care following amputation, claim visit fees. Amputation with immediate fitting to include supervision of final limb fitting - add 40% (E586).
- (6) Arthroscopic surgery shall constitute an arthrotomy for the purposes of this schedule and procedures shall command the same benefits.

Fractures and Dislocations:

- (a) The fracture or dislocation benefits for services requiring no reduction include the major pre-operative visit. For fractures or dislocations requiring open or closed reduction, the major pre-operative visit i.e. consultation or appropriate assessment may be claimed in addition to the listed benefits for open or closed reductions.
- (b) OPEN REDUCTION shall mean the treatment of a fracture or dislocation by either closed intramedullary fixation or by an operative procedure to expose the fracture. The benefits include fixation by internal or external devices.
- (c) CLOSED REDUCTION shall mean the reduction of a fracture or dislocation by non-operative methods (including traction).
- (d) NO REDUCTION shall mean the treatment of a fracture or dislocation by any other method and includes the use of the initial external support.
- (e) The stated benefit covers full or after treatment up to 8 weeks except if additional reductions are necessary or if patient is transferred to another surgeon or if the patient is parapalegic.
- (f) In multiple fractures or dislocations, the benefit for the major fracture or dislocation shall be 100% and the benefit for the other fractures or dislocations 85%. When no procedural benefit is applicable, but when that fracture or dislocation necessitates hospitalization or concurrent care over that demanded by the major injury, a visit benefit may be claimed in addition to other procedural benefits.
- (g) For repeat reductions (closed or open) for the same fracture or dislocation, the full benefit should be claimed for the final reduction and after care - previous reductions by the same surgeon should be claimed at 85%.
- (h) Emergency splinting of fractures in the emergency department should be on the basis of appropriate visit benefit, plus application of cast if appropriate.
- (i) Transferred cases -
 - (1) When patients are transferred to a chronic or convalescent facility, additional visit benefits on a chronic care basis shall be allowed to other than the operating surgeon (and also to the surgeon after 8 weeks).
 - (2) When patients are transferred to another physician for after care of fractures and dislocations treated by closed or no reduction, the physician rendering the initial care should claim 75% of the listed fee and the surgeon rendering subsequent care visit fees except where otherwise specified. In cases involving open reduction, the percentage should be 80% for the surgeon providing the initial care.
 - (3) In cases where the original physician attempts to reduce a fracture or dislocation under general anaesthesia, is unsuccessful and refers the patient to another physician for definitive care, the original physician should claim 75% of the listed fee.
- (j) Paraplegia associated with fractures and dislocations may be claimed by charging visit fees after the first 2 weeks of post-operative care in addition to the appropriate procedural fees.
- (k) Pseudarthrosis may be allowed as the appropriate benefit after the fracture is 4 months old.
- (l) For fractures and dislocations not requiring reduction, visit fees apply unless a specific fee is listed. If the listed fee is less than the consultation, the consultation should be claimed under the fracture/dislocation code number.

ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 358/85.

Exemption—Ministry of the
Environment—MOE-28.

Made—June 17th, 1985.

Approved—June 17th, 1985.

Filed—June 24th, 1985.

ORDER MADE UNDER THE
ENVIRONMENTAL ASSESSMENT ACTEXEMPTION—MINISTRY OF THE
ENVIRONMENT—MOE-28

Having received a request from the Regional Director, Northwestern Region, Ministry of the Environment, that an undertaking, namely:

- A. The activity of excavating PCB contaminated materials (asphalt and soil) from portions of Highway 17 between Ignace and Kenora and adjacent lands (the source area) located in the District of Kenora.
- B. The replacement of the excavated material from the highway, highway shoulders and adjacent lands with uncontaminated granular fill.
- C. The resurfacing with asphalt of the excavated portions of Highway 17.
- D. The transport and delivery of PCB contaminated materials from the source area to a site located on Lot 1, Concession II, in Colenso Township, District of Kenora, and the interim storage at that site of these materials.

E. The disposal of the PCB contaminated materials from the source area at a safe final disposal site (which may be the site noted in Paragraph D above).

F. The transport, delivery, storage and safe final disposal of PCB contaminated materials resulting from the initial clean-up operations immediately following the April 13, 1985 spill of PCB material.

be exempted from the application of the Act pursuant to section 29; and

Having been advised by the Regional Director, Northwestern Region, Ministry of the Environment, that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. PCBs from the source area will gain access to surface and/or ground water adjacent to Highway 17. Biomagnification of PCB inputs may occur through the food chain and may result in PCB contamination of fish.
- B. Members of the public may be exposed to PCBs as the temporary treatment of the highway deteriorates under the influence of traffic and climate. The treatment of the highway surface with tar and sand was intended and designed as a temporary measure only to prevent exposure of the public to the PCB contamination and to permit the reopening of the highway with a minimum of delay.
- C. The PCB contaminated materials resulting from the initial clean-up operations are being temporarily stored on Ontario Hydro prop-

erty interfering with Ontario Hydro's ability to use their property for their own purposes.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

A. With regard to the source area:

- (i) The work can begin this year during the summer months before the temporary treatment of the highway suffers serious deterioration. This will minimize adverse environmental impacts.
- (ii) It is most cost effective to excavate and repair the highway in summer weather conditions.
- (iii) The migration of PCBs from the highway will be reduced or eliminated.
- (iv) The contamination of fish and other organisms will be minimized or prevented.
- (v) Further exposure of the public to the PCB contamination from the spill will be prevented.

B. The PCB contaminated materials on Ontario Hydro's property can be removed for storage and/or disposal at a more suitable location controlled by the Ministry of the Environment. The Regional Director, Northwestern Region, under Ontario Regulation 11/82 will ensure that instructions are issued which will result in these materials being handled in a safe manner with ultimate disposal being subject to the provisions of Part V of the *Environmental Protection Act*.

This exemption is subject to the following terms and conditions:

1. Potentially affected agencies and organizations including local municipalities will be notified of these activities prior to their commencement. The concerns and requirements of these agencies will be taken under advisement in the program.
2. The excavations at the source area and the disposal site for this excavated material will

be monitored to prevent injury to persons and contamination of adjacent land or water.

3. A written report or reports will be completed by the Regional Director, Northwestern Region of the Ministry of the Environment, describing the activities and the monitoring program. These will be available for inspection by the public. O. Reg. 358/85.

Dated this 17th day of June, 1985.

ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 359/85.

Exemption—Ontario Hydro—OH-32.

Made—June 17th, 1985.

Filed—June 24th, 1985.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—ONTARIO HYDRO—OH-32

Having received a request from Ontario Hydro that an undertaking, namely:

The activities of planning, designing, constructing, operating and maintaining a warm water supply system including pumping and pipeline facilities to supply condenser cooling water from the Pickering A Nuclear Power Station westward to the proposed Pickering Aquaculture Centre property at the site of the former Frenchman Bay Sewage Treatment Plant.

be exempt from the application of the Act pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The proposed operator of the Pickering Aquaculture Centre will be adversely affected by any delay in the delivery of warm water which will be used to enhance fish growth rates. Without this source of heat energy, the undertaking will not be viable.
- B. Ontario Hydro will be interfered with and damaged by the undue delay and expense required to prepare an individual environmental assessment for a project which is of a minor nature and will likely have no significant adverse consequences on the environment; and

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management of the environment in Ontario which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order that the undertaking is exempt from the application of the Act for the following reasons:

- A. The primary effect of this activity will be the displacement of a very small portion of the Pickering A Nuclear Power Station condenser cooling water discharge from the station's Lake Ontario outfall, a distance of approximately 750 metres, to the adjacent outfall of the Aquaculture Centre. This discharge from the Aquaculture Centre is subject to review and approval under the *Ontario Water Resources Act*.
- B. This activity is in accordance with provincial government objectives of enhancing the efficiency of existing energy investments and utilizing waste heat energy, in this instance from condenser cooling water, as a substitute for conventional fuels such as natural gas or oil for heating purposes.
- C. The Councils of the Regional Municipality of Durham and the Town of Pickering have passed resolutions in support of the Aquaculture Centre.

This exemption order is subject to the following term and condition:

1. This exemption shall terminate if construction of the water supply system has not commenced by December 31, 1986. O. Reg. 359/85.

Exemption—Ministry of the

Made—July 16th, 1985.

Approved—July 17th, 1985.

**ORDER MADE UNDER THE
ENVIRONMENTAL ASSESSMENT ACT**

**EXEMPTION—MINISTRY OF THE
ENVIRONMENT—MOE-29**

Having received a request from the Regional Director, Southwestern Region, Ministry of the Environment, that an undertaking, namely:

- A. The activity of excavating PCB, dioxin and furan contaminated materials from the Walker Drain and portions of the Pottery Creek and associated floodplains located within the City of London (the source area).

- B. The transport and delivery of the excavated material mentioned in paragraph A to an interim storage vault(s) located on property to be acquired from Westinghouse Canada Inc. and presently used as part of its operations at 1921 Huron Street, London, Ontario.
- C. The construction of a storage vault(s) for the storage of excavated material mentioned in paragraph A and any other existing or future excavated material from the source area.
- D. The restoration of the area affected by the removal of the PCB, dioxin and furan contaminated material.
- E. The covering with soil of PCB, dioxin and furan contaminated soil in portions of the floodplain associated with Pottersburg Creek.

be exempt from the application of the Act pursuant to section 29; and

Having been advised by the Regional Director, Southwestern Region, Ministry of the Environment, that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- (a) The current situation has resulted in PCB contamination of fish and thus PCBs may enter the food chain.
- (b) The PCBs, dioxins and furans can wash downstream into the Thames River resulting in further potential for contamination of the food chain.
- (c) The temporary fencing and signing posted under direction of the Medical Officer of Health because of the public concerns over potential exposure to PCBs, dioxins and furans are not totally effective in preventing children gaining access to the area.
- (d) A large portion of the City parkland in the area cannot be used by members of the public because of the fencing and public concerns over the contaminants.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- (I) The migration of PCBs, dioxins and furans downstream into the Thames River will be

reduced or eliminated. This will result in minimizing or preventing contamination of fish and other organisms.

- (II) The public has been informed of the findings and solutions through a series of public meetings, an open house and meetings of the Pottersburg Public Liaison Committee. Members of the Pottersburg Public Liaison Committee, who were contacted by telephone to inform them of the exemption request, expressed agreement with the seeking of this exemption. The City of London, Ministry of Natural Resources and the Upper Thames Conservation Authority were contacted and indicated agreement with the approach outlined by the Ministry. A Technical Review Committee formed, in part, to review Ministry of Environment's cleanup plans has agreed with the proposed method of cleanup.

- (III) The public and the municipality are anxious that a safe cleanup be carried out as soon as possible to avoid further potential public exposure and the migration of the materials downstream. If the cleanup is to commence this year, a contract must be awarded on or before August 1st so that the vault construction and work at the Walker Drain and Pottersburg Creek can be completed before adverse fall weather conditions begin.

- (IV) The Regional Director, Southwestern Region, under Ontario Regulation 11/82, will insure that instructions are issued which will result in these materials being handled in a safe manner with ultimate disposal being subject to the provisions of Part V of the *Environmental Protection Act*.

This exemption is subject to the following terms and conditions:

- 1. Potentially affected agencies, organizations and committees including the local municipality will be notified of these activities prior to their commencement. The concerns and requirements of these parties will be taken under advisement in the program.
- 2. The excavations at the source area and the storage site(s) will be monitored to prevent injury to persons and contamination of the adjacent land or water.
- 3. A written report, or reports will be issued by the Regional Director, Southwestern Region, Ministry of the Environment, describing the activities and the monitoring program. These will be available for inspection by the public.

Having received a request from the Ministry of Government Services that an undertaking, namely:

The activity of acquiring land, other than by expropriation, in the southern part of the block on the north side of Armoury Street between Center Avenue and Chestnut Street in the City of Toronto, for a proposed courthouse complex,

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reason:

- A. The Minister of Government Services has assured me that the undertaking will not have any significant adverse effect.

This exemption is subject to the following terms and conditions:

1. This Exemption Order shall not apply to the demolition of any existing permanent buildings or the construction of any permanent building which may only be proceeded with pursuant to an approval or an exemption order issued after this Order comes into force.

ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 470/85.

Exemption—Ministry of Natural
Resources—MNR-39/4.

Made—September 4th, 1985.

Approved—September 4th, 1985.

Filed—September 17th, 1985.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—MINISTRY OF NATURAL RESOURCES—MNR-39/4

Having received a request from the Minister of Natural Resources that an undertaking, namely:

The activity of implementing projects under the Ministry of Natural Resources Special Employment Programs which consist of:

1. Projects carried out as part of the joint Federal—Provincial Job Creation Program and the Federal Job Creation Program under section 38 of the *Unemployment Insurance Act* and involving the:

1. Mining Sector Special Employment Work Program
2. Forest Sector Special Employment Work Program
3. Fisheries and Wildlife Special Employment Work Program
4. Conservation Authorities Sector Special Employment Work Program
5. Provincial Parks Sector Special Employment Work Program

be exempt from the application of the Act pursuant to section 29; and

Having been advised by the Minister of Natural Resources that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The Crown and the public will be damaged because the objective of short-term job creation may be impeded by taking time for preparation and submission of an environmental assessment for this undertaking.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment

which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The program is short-term, with projects to be completed by March 31, 1986.
- B. The prime objective of the program is aimed at providing short-term job opportunities for people who are currently unemployed.
- C. This order exempts only those projects which are carried out under the program which form part of the undertaking and does not exempt similar projects undertaken as part of the normal operations of the Ministry of Natural Resources.

This exemption is subject to the following terms and conditions:

1. The Ministry of Natural Resources shall provide the Environmental Assessment Branch, within thirty days of the approval of this exemption, a list of the anticipated projects that will be exempted. The list shall include the following information on each project:

- project description and location;
- the scheduled project commencement and completion date;
- the MNR District within which the project will be carried out;
- any related projects.

This list and information will be revised and forwarded to the Environmental Assessment Branch as additional projects are proposed and approved, or deleted.

2. Where a project exempted by this order is the same as an undertaking for which a Ministry of Natural Resources' Class Environmental Assessment has been submitted and approved, that project shall be carried out in accordance with the applicable Environmental Quality Guidelines and Environmental Quality Implementation Handbook.
3. This exemption order expires on March 31, 1986. Any project not completed by that date is not covered by this exemption order.

Exemption—Ministry of Government
Services—MGS-65.

Made—September 11th, 1985.

Approved—September 11th, 1985.

Filed—September 17th, 1985.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—MINISTRY OF GOVERNMENT SERVICES—MGS-65

Having received a request from the Minister of Government Services that an undertaking, namely:

The activity of interim property management consisting of the removal or demolition of existing structures and levelling of a site known as 225 and 227 Howey Street, and 6 Patricia Drive in the Township of Red Lake, District of Kenora,

be exempt from the application of the Act pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The Ministry of Government Services will be interfered with in that an environmental assessment will be required for an undertaking that will have insignificant adverse effects.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The balance of the interim property management that the Ministry of Government Services proposes for this site is already exempt under the existing Exemption Order MGS-4 and the Ministry of Government Services has informed me that adverse environmental impacts are not expected to be created by either that part of the undertaking exempted hereunder or that part exempted by MGS-4.

- B. The Ministry of Citizenship and Culture has reviewed the undertaking and advised that it will not adversely affect any important heritage features since the only historic building will be relocated by the municipality to a new site.

This exemption is subject to the following terms and conditions:

1. The Ministry of Government Services shall ensure that any open basement or other excavation is filled and graded, and all remaining debris from any structure is removed from the site within thirty days of demolition or removal of the structure having been completed and in any event the demolition or removal of all structures and the filling and grading shall be complete by and no further work shall be done under this Order after December 31, 1985.
2. The Ministry of Government Services shall through written notice inform the Environmental Assessment Branch that they have complied with the requirements of condition 1.
3. The date specified in condition 1 may be extended by the Minister of the Environment to a date not later than June 1, 1986 upon written application by the Minister of Government Services. O. Reg. 471/85.

ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 576/85.

Exemption—Ministry of Natural
Resources—MNR-30/6.

Made—November 1st, 1985.

Filed—November 7th, 1985.

**ORDER MADE UNDER THE
ENVIRONMENTAL ASSESSMENT ACT**

**EXEMPTION—MINISTRY OF NATURAL
RESOURCES—MNR-30/6**

Having received a request from the Minister of Natural Resources that an undertaking, namely:

The carrying out of the Provincial Parks Program including:

(a) Implementing:

1. Park Management Plans,
2. Site Plans,
3. Resource Management Plans,
4. Visitor Service and Interpretive Programs,
5. Development Activities,
6. Capital Construction and Lease Purchase Projects,
7. Wildlife Habitat Improvement Projects,
8. Operations and Maintenance Plans and Schedules,

in Provincial Parks;

- (b) Developing sewage or water works within or for Provincial Parks;
- (c) Acquiring land to amend the boundaries of existing Provincial Parks, to complete land acquisition for an existing Provincial Park or for a sewage lagoon in or for a Provincial Park; and
- (d) Establishing, amending and rescinding boundary regulations for existing Provincial Parks,

be exempted from the application for the Act pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The Ministry of Natural Resources has included a schedule for completion of an Environmental Assessment (EA) for Provincial Park Development with its request for exemption. Pre-submission consultation and completion of the EA for formal submission will be hampered by having to prepare separate exemptions or assessments for all Provincial Park projects at the same time.
- B. Park environmental and recreational features could be damaged in the absence of Provincial Park projects that address existing park management problems.

C. Public enjoyment of recreational features may be reduced in the absence of the implementation of Provincial Park projects.

D. The realization of the Government's Outdoor Recreation Program Objective and economic benefits to local communities would be limited.

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. This interim exemption will allow Provincial Park plans and projects to continue while the Environmental Assessment on the Provincial Parks' Program undergoes pre-submission consultation.
- B. The Provincial Parks Program is carried out within a context of conservation, protection and wise management of the environment. A major feature of the Provincial Parks Program is the preservation of significant, natural and cultural features in the Ontario landscape.
- C. The conditions to which this undertaking is subject will ensure that the public and affected Government agencies are informed of the Ministry of Natural Resources' intentions to implement components of the Provincial Parks Program during the period of this exemption order.
- D. A number of activities that make up this undertaking are similar to activities that are covered by approved MNR Class Environmental Assessments. The Minister of Natural Resources will apply such parts of the procedures specified in the Class Environmental Assessments as are appropriate to the activities that make up this undertaking until such procedures, or other procedures are made directly applicable by the Environmental Assessment referred to in reason A.

This exemption order is subject to the following terms and conditions:

1. This exemption order does not apply to any plan or project:
 - (a) for any provincial park designated by regulation under the *Provincial Parks Act* after June 1, 1983;

- (b) where development is likely to affect the habitat of a species designated under the *Endangered Species Act* (except for protecting the species);
- (c) where the estimated completion cost of a sewage or water works or a capital construction or lease purchase project is in excess of \$2 million, not including any land acquisition costs.
2. This exemption order does not apply to any plan or project which includes the disposition of property or interests in property to the private sector for:
- (a) the development of a new commercial recreation facility or the upgrading of an existing commercial recreational facility;
 - (b) mineral exploration or development,
- both of which will be done pursuant to Exemption Order MNR-26/4, as amended from time to time.
3. MNR will continue to provide the Environmental Assessment Branch as well as the Regional Office of the Ministry of the Environment (MOE) with a list of proposed plans and projects (e.g., annual work plans, park retirement, implementation of a new Park Management Plan, etc.) for the Provincial Parks Program no less than 30 days prior to the implementation of any plan or project. The lists will specify the nature, size and location of all plans and projects and will also specify which plans and projects will be carried out pursuant to another exemption order. MNR will notify the above offices of revisions to the lists no less than 30 days prior to the implementation of any such plans or projects.
4. A copy of the project plans specified in the lists noted in Condition 3 shall be available to the public for examination at the appropriate District Office of MNR at least 30 days before implementation commences.
5. Any activity exempt under this Order that would be approved under a MNR Class Environmental Assessment, except that the approval does not apply to Provincial Parks, shall be carried out in accordance with the appropriate Class EA procedures, as though the activity was not in a Provincial Park by:
- (a) following the appropriate Class EA procedures, including notification, if there is no Park Management Plan; and
 - (b) following the environmental quality guidelines and Construction and Mitigation Handbook, if there is a Park Management Plan.
6. Where the Minister of the Environment determines, after consultation with the Minister of Natural Resources, that a proposed plan or project:
- (a) may generate an unusual amount of public or Government concern; or
 - (b) may have unusual or significant potential environmental impacts not adequately treated in the pertinent planning exercise,
- the Minister of the Environment may, by written notice to the Minister of Natural Resources, direct that an environmental assessment be prepared for the plan or project in which event the plan or project will not be exempt under this Order.
7. Where the Minister of the Environment has given written notice to the Minister of Natural Resources that he is considering the application of Condition 6 to a plan or project, MNR shall not implement the plan or project until 45 days have elapsed from the giving of notice or the Minister of the Environment gives written notice to the Minister of Natural Resources that it is not proposed to require an environmental assessment.
8. During the period covered by this Order, the Provincial Parks Program shall be planned, implemented and managed according to the following Provincial Parks' guidelines and policies:
- ° Ontario Provincial Parks Policy
 - ° Ontario Provincial Parks Planning and Management Policies
 - ° Provincial Park Management Planning Guidelines—1983

ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 577/85.

Exemption—Nepean Hydro—NEPE-C-2.

Made—November 1st, 1985.

Filed—November 7th, 1985.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—NEPEAN HYDRO—NEPE-C-2

Having received a request from the Hydro-Electric Commission of the City of Nepean ("Nepean Hydro") that an undertaking, namely:

the activities of planning, designing, constructing and operating an electrical transformer substation to transform electrical current from 115 kV to 8 kV, on lands owned by Nepean Hydro, in the City of Nepean, being Part of Lot 34, Concession 2, Rideau Front, Township (now City) of Nepean, on a parcel of land in the north-east

corner of the lands shown and designated as Part 14 on a Plan of Survey of Record in the Land Registry Office No. 4 for the Land Titles Division of Ottawa-Carleton as 4R-4733 and the obtaining of electrical power therefore from the immediately adjacent Ontario Hydro 115 kV transmission line.

be exempt from the application of the Act pursuant to Section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. If Nepean Hydro failed to meet the electrical needs of a proposed development in the vicinity of the proposed undertaking the public would be injured by the delay or cancellation of the proposed development.
- B. If the likely alternative to meet the electrical needs of the proposed development, the provision of 44 kV electrical supply to a transformer station on the same site, which would not require approval under the Act, were carried out, Nepean Hydro and its customers would be damaged by increased costs and the additional impact of the constructing of a 44 kV transmission line from facilities owned by Nepean Hydro to the vicinity of the transformer station site.

Having weighed such injury, damage, or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management of the environment which would result from the undertaking being subject to the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The proponent has advised that Exemption Order NEPE-C-1 was granted for the purpose of building an electrical substation on a site approximately 270 metres to the west of the proposed site, but that the City of Nepean has requested that the proponent relocate the substation so that the original site can be developed as a senior citizen's facility.
- B. The proponent has advised that it would be more economical and have less impact on the natural environment if the station were built to transform energy obtained directly from Ontario Hydro's adjacent 115 kV power line rather than through new 44 kV transmission facilities which would have to be provided to bring electricity from more remote 44 kV facilities owned by Nepean Hydro.

- C. The proponent has further advised that the City of Nepean, which will control the development of a new community on the surrounding lands, have approved the use of this land for a substation site and support the proposed construction of a transformer substation supplied from the adjacent 115 kV power line.
- D. The proponent has advised that the transformers and low voltage switchgear will be enclosed in a building similar to those used and accepted elsewhere in the City of Nepean.
- E. The proponent has initiated a consultation process with the Ministry and will maintain this contact throughout the planning and construction stages.

This exemption order is subject to the following terms and conditions:

1. This Order shall expire if construction is not commenced by November 30th, 1986 and supersedes Exemption Order NEPE-C-1 which is hereby revoked.
2. The Hydro-Electric Commission of the City of Nepean shall notify the Environmental Assessment Branch in writing that they have complied with the construction requirements of Condition 1.
3. Mitigation of any adverse environmental effects during construction shall be undertaken in accordance with Ontario Hydro's "Construction and Site Restoration Guidelines for Transmission Facilities".

ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 578/85.

Exemption—Ontario Hydro—OH-13/2.

Made—November 1st, 1985.

Filed—November 7th, 1985.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—ONTARIO HYDRO—OH-13/2.

Having received a request from Ontario Hydro that an exemption order, OH-13, published in The Ontario Gazette on November 13, 1976 be amended to reflect a

change in scope of the undertaking to include heat recovery systems so that an undertaking, namely:

The program of planning, designing, constructing, operating and maintaining,

- (a) New combustion turbine and diesel generator units at existing sites to cover emergency situations and/or a predicted shortage of generating capacity; and
- (b) Heat recovery systems to be retrofitted on existing combustion turbine and diesel generator units to permit the recovery of by-product heat energy which, otherwise would be rejected to the atmosphere.

be exempt from the application of the Act pursuant to Section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

A. The public will be interfered with by the delay in installing:

- (i) generating capacity which is required to maintain an adequate power supply, or
- (ii) by-product heat recovery systems which will normally displace the use of more expensive, non-renewable fuels.

B. Ontario Hydro will be interfered with and damaged by the undue delay and expense required to prepare individual environmental assessments for projects that are urgent, primarily of a minor nature and have no significant adverse consequences on the environment; and

Having weighed such injury, damage, or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The undertaking is unlikely to have any significant adverse effects on the environment and therefore the interference with Ontario Hydro generation and waste heat recovery programs which would be caused by the application of the Act would be undue.
- B. The installation of new combustion turbine and diesel generator units and the addition of

heat recovery systems to old units is subject to review and approval under the *Environmental Protection Act*.

- C. The only additional effect of this amending exemption order is to exempt heat recovery on existing units which is in accordance with the provincial government policies of energy self-sufficiency and conservation of petroleum products.

This exemption is subject to the following terms and conditions:

1. This exemption order replaces Exemption Order OH-13, which is hereby terminated.
2. Where any activity which otherwise would be exempt under this Order, is being carried out as or is part of, an undertaking for which an environmental assessment has been accepted and approval to proceed received, the activity shall be carried out in accordance with any terms or conditions in the approval to proceed.
3. Except on projects where construction commences prior to the latter of the following dates, no further work shall be done pursuant to this exemption order after:
 - (a) the third anniversary of the filing of this Order under the *Regulations Act*, or
 - (b) such later date as the Minister from time to time gives written notice of to the proponent for the purposes of this condition. O. Reg. 578/85.

- (2) For the purpose of paragraph 6 of subsection (1),

- (a) the difference between,

the applicant to the spill creditor under a policy of insurance.

(3) The amount that would otherwise be authorized for payment under section 91 of the Act to an applicant who is the owner of the pollutant or the person having control of the pollutant shall be reduced by an amount equal to,

(a) the amount of any loss, damage, cost or expense in respect of the spill that could have been prevented by the applicant if the applicant had carried out the duty under subsection 81 (1) of the Act to do everything practicable to prevent, eliminate and ameliorate the adverse effects of the spill and to restore the natural environment; and

(b) the amount of any loss, damage, cost or expense in respect of the spill that could have been prevented if the applicant had complied with the lawful orders and the reasonable recommendations of all public officers with respect to prevention, elimination and amelioration of adverse effects and restoration of the natural environment.

(i) The applicant must make every reasonable effort to serve every person whom the applicant, after making reasonable inquiries, has reason to believe is liable to the applicant in respect of the spill with a notice in writing of the application and a claim in writing for payment of the full amount of the loss, damage, cost and expense set out in the application, but this condition does not require the applicant to serve a person whose identity is not known to the applicant if the applicant has made all reasonable efforts to ascertain the identity of the person.

(ii) Subparagraph (i) does not apply where an applicant complies with condition 3 of these conditions before applying to the Corporation for payment.

3. (i) Unless the Corporation has waived the requirement, the applicant must commence an action or actions against all persons liable to the applicant in respect of the spill whose identity is known to or can be ascertained with reasonable effort by the applicant.

(iii) The applicant must prosecute the action or actions to final judgment or dismissal, but a dismissal that is not based on the merit of the applicant's claim does not meet this condition.

(iv) Where the final judgment is obtained by the applicant, the applicant must,

A. make all reasonable efforts to obtain payment of the amount of the final judgment from the judgment debtor or judgment debtors;

B. deliver to the Corporation the bills of costs of the applicant for the action assessed on a party and party basis; and

 5. Any amount the applicant receives from a person liable to the applicant in respect of the spill shall be deducted from the amount otherwise determined under condition 4 of these conditions for the purpose of determining the amount that the Corporation may authorize for payment under condition 4.

 7. Upon request, the applicant must transfer to Her Majesty in right of Ontario any property in respect of which the Corporation proposes to authorize payment in an amount equal to the fair market value of the property.
 8. Where the amount of the application is not more than \$10,000, the applicant must execute a release under seal of all claims for compensation by the Treasurer of Ontario that may be authorized by the Corporation.
 9. The applicant must give interim notice in writing of his loss or damage to the Corporation within thirty days after the day the applicant knows or ought to know of the loss or damage, but the Corporation shall waive this condition where it is of the opinion that the ability of the Corporation to assess the loss or damage has not been prejudiced.
 10. The applicant must make application in writing to the Corporation not later than,
 - A. two years after the day the applicant knows or ought to know of the loss or damage; or
 - B. one year after the day on which the applicant obtains a final judgment or settles an action for his loss or damage,

whichever is the later.
 11. The applicant must inform the Corporation in writing of any change in the information in or in respect of the application forthwith after the change occurs. O. Reg. 618/85, s. 9.

1. Interest on a judgment or on costs must not be included in the amount of the payment.
 2. Where the spill creditor has settled a claim for loss or damage as a direct result of the spill with a person other than the Corporation or the Crown without commencing an action, a reasonable amount on account of the spill creditor's legal expenses related to the settlement shall be included in the amount of the payment.
 3. Where the spill creditor has brought an action and obtained a final judgment entirely or partly for loss or damage as a direct result of the spill, and for costs,
 - A. where the final judgment is entirely for the loss or damage, an amount equal to the costs of the action taxed on a party and party basis shall be included in the payment; or
 - B. where the final judgment is partly for the loss or damage, an amount shall be included in the amount authorized for payment that is in the same proportion to the total costs of the action, assessed on a party and party basis, as the amount of the final judgment for the loss or damage is to the total amount of the judgment.

4. No amount shall be authorized for payment in respect of a claim by the spill creditor in an action that is finally dismissed.

5. The amount that would otherwise be authorized for payment shall be reduced by an amount equal to,

A. \$500 in respect of each claim by the spill creditor for loss or damage to property as a direct result of the spill and the expense of preventing, eliminating or ameliorating adverse effects and restoring the natural environment;

B. the amount of any loss or damage as a direct result of the spill that could have been prevented by the spill creditor if the spill creditor had taken reasonable measures for such prevention; and

C. the amount of any loss or damage as a direct result of the spill that could have been prevented if the spill creditor had complied with the lawful orders and the reasonable recommendations of all public officers with respect to prevention, elimination and amelioration of adverse effects and restoration of the natural environment.

ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 632/85.
Exemption—Ministry of the Environment—MOE-30.
Made—November 28th, 1985.
Filed—December 4th, 1985.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—MINISTRY OF THE ENVIRONMENT—MOE-30

Having received a request from the Regional Director, Central Region, Ministry of the Environment, that an undertaking, namely:

The activity of loading debris created by the May 31, 1985 Simcoe County tornados, such debris now resting at two sites, namely, part of Lot 1, Concession 11, Township of Innisfil and part of Lot 15, Concession 5, Township of West Gwillimbury, and such debris including virtually all types of common building materials, household contents, brush and stumps, hauling it to the Metropolitan Toronto Keele Valley sanitary landfill site for disposal, and restoring the sites to a condition approximating that which existed prior to their use for temporary debris storage,

be exempt from the application of the Act pursuant to section 29; and

Having been advised by the Regional Director, Central Region, that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. Both sites have been assessed by Ministry of the Environment regional hydrogeologic staff and it has been concluded that they are suitable for temporary storage of the debris. However, the sites are hydrogeologically sensitive and are not suited to long term disposal of this waste. Various constituents of the debris cannot be considered to be inert and, therefore, there is a risk of groundwater contamination.
- B. The Township of West Gwillimbury has committed with the property owner to remove the debris from Lot 15, Concession 5 by June 1986. The Ministry of the Environment has agreed to remove and dispose of the debris on behalf of the Township of West Gwillimbury.
- C. The Ministry of the Environment has indicated to the Ministry of Transportation and Communications that it will try to remove the tornado debris from their property in the Township of Innisfil before winter.
- D. Access to the sites and removal of the tornado debris from the temporary storage areas will be hampered by inclement winter weather conditions.
- E. Local sanitary landfills cannot accept the large volume of tornado debris without significantly reducing their overall life capacity. The Keele Valley sanitary landfill site is an engineered landfill site with adequate capacity to accept the tornado debris without seriously reducing the life span of the facility.
- F. The local public will become increasingly uneasy over the continuing presence of the tornado debris in view of the risk to the environment and the Ministry's commitment to remove it.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. Various constituents of the waste cannot be considered to be inert, and therefore, haulage to an approved sanitary landfill site is the only appropriate disposal method.
- B. The local public has expressed concern over possible groundwater contamination from the debris. If the debris can be removed from the temporary storage area prior to the onset of inclement winter weather conditions, then the risk of groundwater contamination from the tornado debris during the spring thaw will be eliminated.
- C. Local sanitary landfills cannot accept the large waste volume without significantly reducing their capacity and life span. Metropolitan Toronto has agreed to the use of their Keele Valley sanitary landfill site for disposal of the tornado debris. Disposal at this location will reduce environmental risks associated with the disposal of the debris and because of the size of the Keele Valley site, will not significantly affect its lifetime.
- D. The public in the area of the sites have, when enquiring about the sites, been advised that the storage of debris is temporary and that the material will be taken elsewhere for permanent disposal. Local Simcoe County municipalities have been advised similarly and when contacted regarding a possible *Environmental Assessment Act* exemption for the activity have indicated their agreement with the approach.
- E. An exemption from the provisions of the *Environmental Assessment Act* will allow the Ministry of the Environment to expedite final disposal of the debris and in so doing honour commitments made after the tornados devastated Simcoe County.

This exemption is subject to the following terms and conditions:

1. The truck haulage routes designated by the Regional Director be followed in order to minimize any potential adverse effects on local Simcoe County residents.
2. A letter be sent to those on the local and county access roads, by the Ministry of the

Environment Barrie District Officer, to notify them of the implementation of the undertaking. A copy of this letter be sent to the town clerks of the townships of Essa, Innisfil and West Gwillimbury.

3. The Regional Director ensure that the hauling contractor will securely contain all loads to prevent litter and clean up any litter that does result from the loading and hauling of the debris.
 4. Noise, smoke and dust generation be monitored by the Regional Director to ensure that local Simcoe County residents are not inconvenienced.
 5. A written report will be prepared by the Regional Director describing the activities involved in the implementation of the undertaking. This report will be made available for inspection by the public and a copy will be submitted to the Director of the Environmental Assessment Branch.

ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 664/85.

Exemption—Ontario Hydro—OH-30/2.

Made—December 5th, 1985.

Filed—December 18th, 1985.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—ONTARIO HYDRO— OH-30/2

Having received a request from Ontario Hydro that an undertaking, namely:

the activity of planning, design and construction of, and property acquisition for, shoreline and riverbank improvements and the subsequent use and maintenance of these improvements;

be exempt from the application of the Act pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

A. The public will be interfered with and damaged by the delay in correction of erosion or sedimentation problems which could result in additional loss or damage to public and private properties.

B. Ontario Hydro will be interfered with and damaged by the delay and expense required to prepare individual environmental assessments which could render the shoreline and riverbank improvements uneconomical and result in a less appropriate course of action and in increased costs to Ontario Hydro through damage to facilities and settlement of damage claims of private property owners.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

A. Ontario Hydro has formally submitted a Class Environmental Assessment pursuant to the previous exemption order for this undertaking; however, an approval has not yet been issued with respect to that Class Environmental Assessment. This exemption extends the existing exemption, which would otherwise expire on January 1, 1986, to provide time to complete processing the Class Environmental Assessment.

B. The undertaking is not likely to have any significant adverse effects on the environment and therefore the interference with the activity of shoreline and riverbank improve-

ments which would be caused by the immediate application of the Act would be undue.

- C. Parts of the undertaking are subject to review and approval under various acts or agreements, including the *Lakes and Rivers Improvement Act*, the *Ontario Water Resources Act* and any existing Water Power Lease Agreements with the Ministry of Natural Resources.
- D. Parts of the undertaking are proposed to repair erosion problems which would become progressively worse if not quickly repaired and the delay involved in obtaining approval under the *Environmental Assessment Act* could result in increased erosion or sedimentation, degradation of the environment and danger to buildings and property.

This exemption is subject to the following terms and conditions:

1. This exemption shall terminate on December 31, 1986 or, if earlier, the date on which approval to proceed with the undertaking is received under the Act.
2. Ontario Hydro shall consult with the Director of the Environmental Assessment Branch in cases where it appears that the activity would result in significant adverse environmental changes so that Ontario Hydro and the Minister of the Environment may decide whether the project should proceed pursuant to an individual environmental assessment rather than this order.
3. An Environmental Report shall be prepared by Ontario Hydro for each project initiated under this exemption order, and will be submitted to the Director of the EA Branch at least 30 days prior to the proposed implementation of such activities. A copy of the Environmental Report shall also be submitted to the Director of the appropriate Ministry of the Environment regional office. This report will be filed in the public record in order to inform the public of proposed projects.
4. Where any activity which otherwise would be exempt under this order is being carried out as, or is part of, an undertaking for which an environmental assessment has been accepted and approval to proceed received, the activity shall be carried out in accordance with any terms or conditions in the approval to proceed as well as the conditions of this order.
5. Where any activity which is the subject of this order is being carried out as, or is part of, another undertaking which is the subject of

an exemption order under the Act, the activity exempt under this order shall be carried out in accordance with any terms or conditions in the other exemption order as well as the conditions in this order.

6. Ontario Hydro shall continue to provide the Director of the Environmental Assessment Branch with a list of projects, which Ontario Hydro proposes to carry out under this order, every six months and shall not carry out any project pursuant to this order unless it is included on the list or added as an update.

ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 665/85.

Exemption—Ontario Hydro—OH-29/2.

Made—December 5th, 1985.

Filed—December 18th, 1985.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—ONTARIO HYDRO— OH-29/2

Having received a request from Ontario Hydro that an undertaking, namely:

the activity of modifying by redeveloping or upgrading all existing hydroelectric facilities including: hydroelectric generating stations, storage/control dams, measuring/submerged weirs, and access roads;

be exempt from the application of the Act pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The public will be interfered with and damaged by the delay in correction of facility defects or delay in optimization of resource use which could either render a facility unsafe (with possible resultant loss or damage to public property or health) or uneconomical.
- B. Ontario Hydro will be interfered with and damaged by the delay and expense required to prepare individual environmental assessments which could render modification

activities uneconomical, necessitate extended uneconomic operation of facilities or temporary decommissioning of facilities leading to a requirement for substitute power.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. Ontario Hydro has formally submitted a Class Environmental Assessment pursuant to the previous exemption order for this undertaking; however, an approval has not yet been issued with respect to that Class Environmental Assessment. This exemption extends the existing exemption, which would otherwise expire on January 1, 1986, to provide time to complete processing the Class Environmental Assessment.
- B. The undertaking is not likely to have any significant adverse effects on the environment as the exempt activities are primarily of a minor nature; therefore, the interference which would be caused by the immediate application of the Act, would be undue.
- C. Parts of the undertaking are subject to review and approval under various acts or agreements, including the *Environmental Protection Act*, Water Power Lease Agreements with the Ministry of Natural Resources and Licences of Occupation with MNR.

This exemption is subject to the following terms and conditions:

1. This exemption shall terminate on December 31, 1986 or, if earlier, the date on which approval to proceed with the undertaking is received under the Act.
2. Ontario Hydro shall consult with the Director of the Environmental Assessment Branch in cases where it appears that the modification activity would result in significant adverse environmental changes so that Ontario Hydro and the Minister of the Environment may decide whether the project should proceed pursuant to an individual environmental assessment rather than this order.
3. An Environmental Report shall be prepared by Ontario Hydro for each project initiated under this exemption order, and will be sub-

mitted to the Director of the EA Branch at least 30 days prior to the proposed implementation of such activities. A copy of the Environmental Report shall also be submitted to the Director of the appropriate Ministry of the Environment regional office. This report will be filed in the public records in order to inform the public of proposed projects.

4. Where any activity which otherwise would be exempt under this order is being carried out as, or is part of, an undertaking for which an environmental assessment has been accepted and approval to proceed received, the activity shall be carried out in accordance with any terms or conditions in the approval to proceed as well as the conditions of this order.
5. Where any activity which is the subject of this order is being carried out as, or is part of, another undertaking which is the subject of an exemption order under the Act, the activity exempt under this order shall be carried out in accordance with any terms or conditions in the other exemption order as well as the conditions in this order.
6. Ontario Hydro shall continue to provide the Director of the Environmental Assessment Branch with a list of projects, which Ontario Hydro proposes to carry out under this order every six months and shall not carry out any project pursuant to this order unless it is included on the list or added as an update.
